The internet has significantly formed our reality and has completely changed ourselves in both of all shapes and small ways. The technology change around us has happened both rapidly and palpably. The absolute first associations between computers almost fifty years prior have been changed into a flood of network that covers the planet. New innovations in technology and devices have given us more approaches to tackle the intensity of network. Any place we proceed to have given us usefulness we would never have imagined. Online networking, mobile computing, analytics, examination, the advanced mobile phone, tablets, cloud, figuring the movements in innovation are huge and all are empowering agents for a revolution affecting business. At this moment, digital transformation needs every one of us to contemplate how we can turn into an ace of digitization instead a victim. Digital transformation is basic for all organizations from the little to the enterprise. That message comes through loud and clear from apparently every keynote, board discourse, article or concentrate identified with how organizations can stay focused and applicable as the world turns out to be progressively digital. What's uncertain to numerous business chiefs is the thing that digital transformation means. Is it only a snappy method to express moving to the cloud? What are the particular advances we have to take? Do we have to structure new openings to assist us with making a system for advanced change or contract a counseling administration? What parts of our business methodology need to change? Is it extremely justified despite all the trouble? Digital transformation drives the combination of on the web and disconnected, problematic innovations and the extreme difference in whole enterprises. Automation, optimization, self-sufficiency of procedures just as greater adaptability and distinction of items and services are only a portion of the advantages and chances of digitalization. The procedure additionally prompts creative plans of action and advanced items. The most well-known drivers of progress are expanded client desires and competition in the market.

Digital technologies are impacting society in the 21st century the same way the industrial technologies impacted society in the 20th century. They are dramatically changing consumer behavior and expectations which is resulting in traditional industries being disrupted, traditional businesses being displaced and new industries being created. Executives of traditional companies must transform their business models to survive in the digital economy.

in this book author lynda j roth describes how technology has been transforming society over the past 200 years and why the current digital technologies are so disruptive explains the digital technologies that are fueling the digital economy with stories of successful business applications describes the 7 key mistakes business executives are making in their digital transformation details the 5 key steps to a successful transformation from a traditional 20th century business to a thriving 21st century digital business
