the covid 19 pandemic has reignited discussions of how architects landscape designers and urban planners can shape the environment in response to disease this challenge is both a timely topic and one with an illuminating history in the topography of wellness sara jensen carr offers a chronological narrative of how six epidemics transformed the american urban landscape reflecting changing views of the power of design pathology of disease and the epidemiology of the environment from the infectious diseases of cholera and tuberculosis to so called social diseases of idleness and crime to the more complicated origins of today s chronic diseases each illness and its associated combat strategies has left its mark on our surroundings while each solution succeeded in eliminating the disease on some level sweeping environmental changes often came with significant social and physical consequences even more unexpectedly some adaptations inadvertently incubated future epidemics from the industrial revolution to present day this book illuminates the constant evolution of our relationship to wellness and the environment by documenting the shifting grounds of illness and the urban landscape preparation of this volume has been supported by furthermore a program of the j m kaplan fund

in recent decades american suburbs have undergone a so called renaissance as multiple forces have transformed them into denser urban landscapes yet at the same time suburban racial diversity immigration and poverty rates have surged the right to suburbia investigates how marginalized communities in the suburbs of washington dc one of the most intensely gentrifying metropolitan regions in the united states have battled the uneven costs and benefits of redevelopment willow lung amam narrates the efforts of activists community groups and political leaders fighting for communities right to suburbia that is their right to stay put and benefit from new neighborhood investments revealing the far reaching impacts of state led redevelopment the right to suburbia shows how patterns of unequal racialized development and displacement are being produced and reproduced in suburbs and how communities are fighting back

february issue includes appendix entitled directory of united states government periodicals and subscription publications september issue includes list of depository libraries june and december issues include semiannual index

covers all models of chevrolet gmc 1 2 3 4 and 1 ton pick ups and suburban blazer and jimmy 2 and 4 wheel drive including diesel engines

including 1991 suburban

a world list of books in the english language

an accomplished architect and urbanist goes back to the roots of what makes cities attractive and livable demonstrating how we can restore function and beauty to our urban spaces for the long term nearly everything we treasure in the world’s most beautiful cities was built over a century ago cities like prague paris and lisbon draw millions of visitors from around the world because of their exquisite architecture walkable neighborhoods and human scale yet a great deal of the knowledge and practice behind successful city planning has been abandoned over the last hundred years—not because of traffic population growth or other practical hurdles but because of ill considered theories emerging from modernism and reactions to it the errors of urban design over the last century are too great not to question the solutions being offered today—sustainability walkability smart and green technologies—hint at what has been lost and what may be regained but they remain piecemeal and superficial in the art of classic planning architect and planner nir haim buras documents and extends the time tested and holistic practices that held sway before the reign of modernism with hundreds of full color illustrations and photographs that will captivate architects planners administrators and developers the art of classic planning restores and revitalizes the foundations of urban planning inspired by venerable cities like kyoto vienna and venice and by the great successes of iōenfant’s washington haussmann’s paris and burnham’s chicago buras combines theory and a host of examples to arrive at clear guidelines for best practices in classic planning for today’s world the art of classic planning celebrates the enduring principles of urban design and invites us to return to building beautiful cities
