thucydides work was one of the most exciting creations in the cultural history of greece in the fifth century bc one of only two monumental prose works to have survived and
it still poses fresh and challenging questions about the writing of history in the twenty first century it still challenges the reader there is a marked tension in thucydides history
between his aim to write about contemporary events and his desire that his work should outlast the period in which he composed it thucydides and the shaping of history
addresses two important issues how contemporary was the history when it was written in the fifth century and how contemporary is it now this book approaches the shaping
of history from three different angles the way in which thucydides shaped history and how his narrative shapes our experience as readers of the history the relationship

between thucydides work and contemporary institutions such as the theatre and the role that ancient readers and modern scholars have played in shaping how we perceive the history this book combines a close analysis of thucydides narrative with a discussion of its intellectual motivation it examines how the historian attempted to determine the way in which readers would respond to his conception of the events of the atheno peloponnesian war and to ensure the continuing influence of his ideas

time tide and history eleanor dark s fiction is the first book length edited collection of scholarly essays to treat the full span of eleanor dark s fiction advancing a recent revival of critical and scholarly interest in dark s writing this volume not only establishes a new view of dark s fiction as a whole but also reflects on the ways in which her fiction speaks to our present moment in the context of a globally fraught post pandemic anthropocene era above all the revisiting of dark s fiction is mandated by a desire to recognise the ways in which it anticipates vital debates in australian literary and national culture today about settler colonialism and its legacies and with regard to the histories condition and status of australia s first nations people this volume interweaves varied topical themes from formal debates about modernism historical realism and melodrama to questions about modernity s time and space about gender and cultural difference and about the specifics of built and natural environments time tide and history intentionally loosens the conventions of literary scholarship by including other kinds of work alongside critical and scholarly readings a written dialogue between two contemporary historians about dark s legacy and a biographical piece on the life and role of eleanor dark s husband eric payten dark bringing together the interwar fiction s feminist and modernist dimensions with the historical turn of the timeless land trilogy the essays in time tide and history collectively pursue ethical and political questions while teasing out the distinctive thematic formal and aesthetic features of dark s fiction

in preparing a first book of american history it is necessary to keep in mind the two purposed such a work is required to serve there are children whose school life is brief these must get all the instruction they are to receive in their country s history from a book of the grade of this to another class of pupils the first book of american history is a preparation for the intelligent study of a textbook more advanced it is a manifest waste of time and energy to require these to learn in a lower class the facts that must be re studied in a higher grade moreover primary histories which follow the order of larger books are likely to prove dry and unsatisfactory condensations but a beginner s book ought before all things else to be interesting a fact received with the attention raised to its highest power remains fixed in the memory that which is learned listlessly is lost easily and a lifelong aversion to history is often the main result produced by the use of an unsuitable textbook at the outset the main peculiarity of the present book is that it aims to teach children the history of the country by making them acquainted with some of the most illustrious actors in it a child is interested above all in persons biography is for him the natural door into history the order of events in a nation s life is somewhat above the reach of younger pupils but the course of human life and the personal achievements of an individual are intelligible and delightful in teaching younger pupils by means of biography which is the very alphabet of history we are following a sound principle often forgotten that primary education should be pursued along the line of the least resistance moreover nothing is more important to the young american than an acquaintance with the careers of the great men of his country
