in 1999 by the board of education in kansas voted to delete all mention of evolution from the state s recommended science curriculum and also from its educational assessment tests this decision and similar decisions in other states suggest the persistence of creationists and their ability to capture sufficient support to influence educational policies although evolutionary ideas have become

increasing important to many scientific fields the creationists still have significant influence on science curriculum how have religious fundamentalists and right wing conservatives managed to have such influence in this science dominated age why is their such opposition to the teaching of evolution this book places the kansas decision in the broader context of the controversy between creationists and evolutionists as a group of religious fundamentalists who defined themselves as scientists have challenged the most basic assumptions of contemporary biology though motivated by religious beliefs they have tried to bypass the constitutional requirement for the separation of church and state as they seek to influence legislature and school boards looking at the people involved in this social movement and tracing changes in their arguments and strategies this book links the creation evolution controversy to broader questions about the meaning of religion in a secular science public trust in science and persistent concerns about its social and moral implications

how can we love the lord our god with all our heart soul mind and strength if we must separate our minds from our faith asks dr hugh ross in creation and time dr ross provides a solution to the creation date controversy that requires no compromise by either the scientist trusting in the facts of nature or the christian holding to the inerrancy of scripture
