democracy in the world is backsliding in many countries around the globe at the present time due to various reasons different nations may have their own particular reasons such as socioeconomic inequality poverty failure of checks and balances

that may result in an abrupt military coup d etat to change from democracy to tyranny in nations where democracy failed there were no tanks on the street constitution of the land remained but elected leaders became autocrats maintaining a veneer of democracy america being a nation with nearly 80 percent of christians has been the strongest democracy in the world who championed it as the model for the rest of the world however democracy in america appears to be in peril because of political bickering partisan gridlock and promulgation of falsities misinformation and faux faith by one political party by introducing the foundational principles of democracy from the philosophical arguments of socrates plato and aristotle the author shows how and why the cornerstone of democracy in america shows signs of crumbling the book vividly explains politics without god will shatter the foundation of democracy present political system rejects the checks and balances laid by the founding fathers the right wing has cultivated a spirit of untruth that spreads like a wildfire rejecting truth by political parties and leadership is a sign of strong delusion there is a clear moral bankruptcy in the present political sphere of our nation the brightness of democracy in america which tocqueville praised has been tarnished hypocritic and dishonest leaders should not reign lest the people be ensnared american politicians must register their solemn oath in heaven to act in truth no nation can be established in one day but can shatter in one day by a despot america must realign with god to lead the nation in truth justice and freedom for all democracy turns to tyranny when a moral man becomes amoral with biblical prophecies and instructions the author shows that america faces a real threat to its democracy unless it resists tyrants with all their mind soul and strength which is obedience to god who can anchor the nation on its solid foundation set by the founding fathers every citizen political and judicial leaders of the nation are the cupbearers and the watchmen of the nation

the most detailed study of soviet military industrial espionage during the 1930s 1940s and 1950s spying aimed specifically at acquiring restricted information and materials relating to american industry technology and science

examines the nation s first widely publicized case involving the concept of clergy malpractice and the questions it raised regarding separation of church and state free exercise of religion and state regulation of non professional counseling

in the transatlantic world of the late eighteenth century easterly winds blew radical thought to america thomas paine had already arrived on these shores in 1774 and made his mark as a radical pamphleteer during the revolution in his wake followed more than 200 other radical exiles english dissenters whigs and painites scottish lads o parts and irish patriots who became influential newspaper writers and editors and helped change the nature of political discourse in a young nation michael durey has written the first full scale analysis of these radicals evaluating the long term

influence their ideas have had on american political thought transatlantic radicals uncovers the roots of their radicalism in the old world and tells the story of how these men came to be exiled how they emigrated and how they participated in the politics of their adopted country nearly all of these radicals looked to paine as their spiritual leader and to thomas jefferson as their political champion they held egalitarian anti federalist values and promoted an extreme form of participatory democracy that found a niche in the radical wing of jefferson s republican party their divided views on slavery however reveal that democratic republicanism was unable to cope with the realities of that institution as political activists during the 1790s they proved crucial to jefferson s 1800 presidential victory then after his views moderated and their influence waned many repatriated others drifted into anonymity and a few managed to find success in the new world although many of these men are known to us through other histories their influence as a group has never before been so closely examined durey persuasively demonstrates that the intellectual ferment in britain did indeed have tremendous influence on american politics his account of that influence sheds considerable light on transatlantic political history and differences in religious political and economic freedoms skillfully balancing a large cast of characters transatlantic radicals depicts the diversity of their experiences and shows how crucial these reluctant émigrés were to shaping our republic in its formative years

includes minutes of the conventions of the general synod the general council and the united synod
