with contributions from senior trainers and clinicians who draw on both relevant research and their own experience this book is rooted in current best practice

and provides a clear exposition of the main issues important to supervision

this is an accessible guide to being an excellent supervisor it includes practical examples and offers a model of supervision which has been tried and tested in the field

new edition of a distinctive guide to clinical supervision for all who work in the mental health field evidence based cbt supervision offers an evidence based perspective of particular interest to cbt supervisors working within mental health it integrates the author s extensive professional experience with relevant theories empirical knowledge derived from the latest research and guidance from other leaders in the field first published as evidence based clinical supervision the second edition puts the emphasis more firmly on a cognitive behavioral approach clarifying as never before a cbt orientation to the subject it also incorporates more information on the restorative function of supervision supporting supervisors emotionally and draws on findings and methods for developing professional expertise founded on the author s long term involvement in painstaking programmatic research this book offers an original scholarly systematic and constructive guide for fostering evidence based supervision in mental health care it features a manual with video demonstrations and supervision guidelines and includes many useful ideas and recommendations for all those involved in supervision not just trainers and supervisors the author also spells out how the evidence base informs his companion book the more practical and training focused manual for evidence based cbt supervision milne reiser 2017 bringing applied science to supervision evidence based cbt supervision offers an expert s guide to the critical business of making clinical supervision work within modern mental health services

britain has a fine tradition of writing about supervision practice this book connects to this by organising reflection around the practice taken from the author s sixteen years experience as a practitioner taking three broad sets of tasks of supervision as an organising frame the book weaves examples of professional experience with current research and other reflective writing from a broadly humanistic perspective it examines the developmental journey of a supervisor interested in the overlap of the personal and the professional

are you supporting students in practice this book provides an overview of the different approaches and summarises the key nmc standards that you need to understand you will follow the student s journey on placement starting from the preparation needed before they arrive through to the orientation initial interview and planning of learning plus how to provide feedback and ensure that your assessment is fair and objective some of the challenges you may face will be explored along with approaches you can use to ensure successful outcomes this is an indispensable handbook for both new and experienced nurses seeking practical advice

academic staff who prepare and support practice supervisors and assessors students undertaking modules on teaching and learning in practice based on the nmc standards for student supervision and assessment offers guidance and tips on supporting and assessing students on placements presents sections on understanding you supporting the student with additional needs and using simulated learning covers how to support students who are not making the progress expected action points at the end of each chapter will help you consolidate your learning part of the a nurse s survival guide series now fully aligned to the latest nmc standards and competencies on supervision and assessment

since the publication of the first edition of this book supervision has become of even greater significance in health education and social care settings with continuing pace in the trend towards mandatory registration managed care and clinical governance this fully updated and expanded edition includes new chapters on issues of diversity and the managerial role of the supervisor in context packed with practical examples in the key areas of personal and professional development joyce scaife and her contributors draw on three decades of clinical experience to explore frequently encountered dilemmas including how supervisors facilitate learning the ethical bases of supervision creating and maintaining a good working alliance how supervisors can balance management and supervision roles working equitably in an increasingly diverse and pluralistic world supervision in clinical practice offers a range of suggestions for providing supervision that are stimulating creative and fun using methods that ensure safe and open practice it is an indispensable text for supervisors and supervisees who practice clinically in a range of professions including applied psychology counselling psychotherapy psychiatry nursing and social work

this book is a timely review of scholarship in social work supervision re examining the state of knowledge research and practice and asking if it is time for a new paradigm for the field the contributors present a universal paradigm in social work around what we understand social work to be not only through its practice of supervision but also what this contributes to the challenge of any dominant ideas or ideals about the supervision agenda in an increasingly globalised social work context capturing new developments from different regions of the world the book shows how these can inform critical practice professional development and well being and have a wider impact on accountability effectiveness and work performance the book will be appreciated by people needing or using services novice or learner social workers and those responsible for training or educating in supervision knowledge and skills or preparing to take up this important role with applications for both academic research and practitioner based learning this book will help to ensure the best quality and supportive practice within the workforce and community it serves this book was originally published as a special issue of the european journal of social work

supervision is an essential constituent of analytic and psychotherapy training and a crucial part of ongoing professional development for all practitioners in spite of

this little formal theory about supervision has been developed and for the most part learning to supervise has progressed using a simple apprenticeship model supervising and being supervised aims to rectify this situation jan wiener richard mizen and jenny duckham draw together contributions from a number of experienced jungian analysts who supervise to explore key aspects of the supervisory experience with the aim of developing a theory for analytically based work part one explores the nature of the supervisor supervisee relationship part two looks at a number of the settings and applications of supervision and part three examines problems that might occur in supervision in the fourth and final part and drawing on the previous chapters the focus turns specifically to the challenges of developing a clear theory of supervision

the authors have assembled some of the finest minds in the field of supervision studies to produce supervision as collaboration in the human services key aspects of a learning organization and the process of organizational learning are explored across the various human services social mental health health and aging making this an essential core text for graduate and undergraduate students of social work and counselling as well as for human services supervisors and practitioners

by focusing on the skills needed for success rather than the skills demanded by specific positions or tasks this universally applicable book prepares future educators to meet the challenges of contemporary educational environments the authors imbue this book with the findings of relevant contemporary research through the extensive use of case studies scenarios and illustrations connecting chapter content to real world problems in education material is organized by skills such as pedagogy human relations staff development and program design in order to emphasize the supervisor s role in coordinating the various administrative curricular and instructional concerns involved in providing instruction in today s demanding multicultural settings features broad extensive coverage of the connection between teaching and the curriculum coverage of technology familiarizes future educators with current educational aids examines the pros and cons of increasing reliance on technology and provides guidelines for evaluating new technology as it is developed extensive material on alternative certifications in chapter 10 provides coverage of the realities of alternatives their advantages and disadvantages and how to pursue a specific goal for future educators or those pursuing a variety of career paths that fall under the umbrella of supervision

effective supervisory relationships best evidence and practice is the first book to explore in detail the supervisory relationship which research has consistently found to be the most critical component of any supervisory process helen beinart and sue clohessy two experts in the field draw on world wide studies that cover all major therapeutic approaches to the supervisory relationship and include detailed coverage of cultural competence and issues of effective multicultural supervision the result is a comprehensive resource that offers cutting edge internationally relevant information in order to inform study training continuing professional

development and practice

new data have come to light through the solution focused brief therapy association archive hereafter the archive this information is drawn from manuscripts and video featuring one of the sf founders insoo kim berg msw archive video examples of ms berg conducting supervision therapy teams and case consultation as well as unpublished manuscripts written by her provide unique opportunities to illustrate specific assumptions and techniques rarely seen before the documents outline ms berg s philosophy assumptions and techniques to conduct supervision and the videos offer in vivo examples of her supervision and team case consultation style together the archive materials offer a rich resource for a book that both informs and illustrates sfs

there is without doubt a great need for a practical and theoretical framework through which supervisors primarily but also supervisees can negotiate the relationship of supervision this invaluable resource book gives a brief overview of the history of supervision and its importance in initial and ongoing counselling training reviewing both the british and us literature and brings together contemporary themes and debates within supervision the author presents his own linear model of supervision connecting goals functions and tasks and presents and analyses the seven tasks of supervision a model for the management of the supervisory process is then discussed outlining a five stage chronology of the steps through which a supervisory relationship travels importantly the organizational dimension of supervision is studied in detail and a number of supervisory formats individual peer group and team are evaluated the concluding chapter on ethics is an attempt to offer a model of ethical decision making applicable to both counselling and supervision it reviews in some detail the various responsibilities of supervisors an appendix includes the revised code of ethics and practice for supervisors from bac book jacket title summary field provided by blackwell north america inc all rights reserved

supervision in school psychology the developmental ecological problem solving model examines specific factors that contribute to successful supervision in school psychology including the integration of a developmental process of training the ecological contexts that impact practice and evidence based problem solving strategies supervision is a core professional competency requiring specific training for the benefit of supervisees clients and the profession written for graduate students researchers and professionals in the field of school psychology this book provides thorough specific and immediately applicable methods and principles for supervisory practice featuring a diverse set of pedagogical tools supervision in school psychology is an important resource for navigating the distinct challenges specific to the demanding and diverse competencies associated with supervision in school based settings this second edition is significantly expanded and includes updated research on best practices in school psychology supervision expanded coverage and new chapters address system change and social justice advocacy skills

problems in professional competence self care telesupervision and deliberate practice maintaining dep s focus on the practical application of best practices additional strategies are presented for teaching diveristy and multicultural responsiveness anchored in cultural humility supplemental case study material supervisory process and reflection activities tables graphics and practice ready appendices as tools that illustrate best practices in supervision

this is a practical guide aimed at supervisors of research students it is written in a lively case study style and is designed to appeal to supervisors who need a quick fix and who have neither the time nor the inclination to read a more detailed in depth book on the subject such as supervising the doctorate there is a growing need for such a volume as the qaa postgraduate code of practice in the uk indicates that all new doctoral supervisors must be trained appropriately this book will be very suitable for such training courses the authors both come from a medical background so the book is likely to be particularly well recieved within scientfic and medical departments

the second edition of group supervision is essential reading for all participants in group supervision it offers a comprehensive insight into the complexities of organising managing and creatively facilitating a group or of being a practitioner in a cooperative peer group professor sue wheeler university of leicester among the plethora of supervision books group supervision is the only one dedicated to group work brigid proctor shows how group supervision can provide a supportive environment in which practitioners learn from each others experience finding positive and creative ways of working with the diversity which characterises all groups examining tasks roles and responsibilities of both supervisors and supervisees she describes the skills needed for managing different types of group developing a flexible leadership style making sense of group and individual needs using creative methods the second edition of this popular text features up to date research findings on group supervision in organisations and further coverage of the challenge of ethical decision making in groups a new chapter considers the advantages of groups for supervisor development and training stressing the urgency for greater accountability and research essential for all supervisors and trainers the practical information in this book will also benefit those who manage organizations providing group supervision for counsellors and psychotherapists be they employees volunteers or trainees brigid proctor fellow of the bacp is a retired director of counselling courses at south west london college and has subsequently worked freelance as a counsellor supervisor trainer and consultant
