their work

you likely use problem solving every day it is often taken for granted people do not realize just how wonderful and important problem solving is
most people do not even recognize it as a skill in fact most of the time problem solving is just second nature problem solving can actually be defined
as an art the art of problem solving is something that we learn at a very young age it helps us through life and is something we could not live
without being able to solve problems is a life skill it is important and it should be taken seriously to get the best results from it looking at problem
solving as an art can help you to become more appreciative of it you can begin to use problem solving to its full potential and really respect that
problem solving is important you just need to learn more about problem solving as a skill and an art problem solving is a fixture in life you have to
be able to solve problems problems pop up every day sometimes they are small and sometimes they are large sometimes solving a problem is a

matter of life and death and other times it is merely a matter of keeping your sanity regardless of why you need problem solving you cannot deny that you need it if you are a parent then problem solving is a skill you no doubt could not live without children are full of problems and as the parent it is up to you to help them find the solution sometimes you have to be creative because problems that come up can sometimes be quite difficult to solve without a little creative thinking the same can be said in business businesses have plenty of problems and it is up to the employees to find a way to solve those problems

description do you know what problem solving skills are do you want to know how to use problem solving skills many people believe that your feelings are separate or independent of your thoughts but the truth is that feelings are as a result of your thoughts this revelation is very enlightening as well as liberating it is enlightening because you realize that we are responsible for our attitudes because the power to decide our perspective our thoughts and our mood is in our hands when you are aware that you can choose and decide your thinking you discover that you have the ability to best control the circumstances in your life enhance your decision making abilities and live a life that is more productive we think critically with a mindset of problem solving when we depend on reason and not emotions analyze a wide range of viewpoints and perspectives have an open mind to other interpretations acknowledge new evidence explanations and results are always willing to re evaluate information can separate from personal biases and prejudices be considerate of all possibilities avoid forming quick conclusions just like all other skills developing knowledge in critical thinking or problem solving takes time practice and perseverance step by step critical thinking for problem solving identify the problem first identify if there exists a problem to be solved it is possible that after thinking this through you realize there is no problem but a misunderstanding if then there is a problem you need to identify the exact problem try and analyze the pros and cons of the problem define and state it analyze the problem

after identifying the problem now analyze it using different perspectives and ask questions like is it possible to solve it do you need help to solve it the advantage of looking at a problem in different angles is that you may be able to come up with a solution immediately you may also be able to identify a narrow point of view or bias that needs to be expanded brainstorm brainstorming is important as it enables you to come up with several possible solutions when you come up with several possible solutions makes it easier for you to find the ultimate solution decide on the best solution go through your list of proposed solutions take your time and determine what solution amongst the ones you have best suits the situation take action now it is time to implement your solution every problem has a solution do practice approaching problems as opportunities and not as obstacles this will help you enhance your problem solving and critical thinking skills for every problem that you are able to solve it increases your self worth and confidence critical thinking enables you to handle future problems with more skill and increases your experience as you gain perspective in this book we will discuss the following topics what is critical thinking the psychology of critical thinking four goals for critical thinking self direction self discipline self monitoring self correction and many more do we have your attention now are you excited look no more download our book now and know everything about problem solving skills
