is jesus the christ if so what does that mean how can a human person be a cosmic principle don macgregor hopes to make christianity more relevant for the twenty first century in his reflection into the difference between the universal or cosmic christ principle and the human figure of jesus of nazareth he takes a deep dive into reincarnation mysticism and the message of transformation that jesus taught contrasting that with the transaction that the institutional church taught this is the third book in the wisdom series in which the author seeks to reframe christianity within a larger sphere that of the perennial philosophy

weaving pneumatological teleological eschatological anthropological and ecological strands into christology gunton draws from and interacts with a wide range of theologians from ancient to modern to weave together a strong incarnation creation link and the doctrine of the holy spirit

everyone christians included knows what it s like to feel isolated and alone we ve all wondered if anyone really understands us or truly cares about our lives the good news is

that we aren't alone and the gospel tells us why Jesus the son of God came to earth to be forever united with his people to be one of us in fact he has so united himself with us that the bible says we are literally in him far from being alone and lost the incarnation changes everything for the Christian writing with everyday readers in mind Elise Fitzpatrick fleshes out the practical implications of our union with Christ and gives us confidence that we are not alone in this approachable and applicable devotional book

Professor of Theology Stephen Wellum considers Christ's singular uniqueness and significance biblically historically and today in our pluralistic and postmodern age Christ alone is a much needed study and defense of the doctrine that provides coherency to the Christian faith if the church is to proclaim the same Christ as the reformers we must understand and embrace *Solus Christus* with the same clarity conviction urgency and abundance of joy as the reformers to that end Wellum recovers the reformers' basic insights by focusing first on two teachings the exclusive identity of Christ and his sufficient work follows the historical roots of the doctrine and its developments to show how the uniqueness of Christ has come under specific attack today retraces the storyline of Scripture from Christ's unique identity and work as prophet priest and king to the application of his work to believers and our covenantal union with him Christ alone seeks to recover a robust biblical and theological doctrine of Christ's person and work and a renewed understanding that apart from Christ there is no salvation in the face of today's challenges unpacking why a fresh appraisal of the Reformation understanding of Christ alone is so important today the five *Solas* historians and theologians have long recognized that at the heart of the sixteenth century Protestant Reformation were five declarations often referred to as the *Solas* these five statements summarize much of what the Reformation was about and they distinguish Protestantism from other expressions of the Christian faith that they place ultimate and final authority in the Scriptures acknowledge the work of Christ alone as sufficient for redemption recognize that salvation is by grace alone through faith alone and seek to do all things for God's glory the five *Solas* series is more than a simple rehashing of these statements but instead expounds upon the biblical reasoning behind them leading to a more profound theological vision of our lives and callings as Christians and churches

This is a book about Jesus of Nazareth it is not a book about story nor about narrative theology Hans Frei was not a theologian of story or of narrative in any general way and this book is neither about the narrative quality of our existence and the Gospel's relation to that quality nor about the narrative shape of the Scriptures as a whole and the call on us to place ourselves within that narrative rather this is a book about the way in which Jesus of Nazareth's identity is rendered by the Gospels largely the synoptic Gospels particularly the Gospel of Luke and especially in the passion and resurrection sequences by means of a certain kind of narrative from the foreword by Mike Higton

Reprint of the original first published in 1837 The Antigonos Publishing House specialises in the publication of reprints of historical books we make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

The object of the present work is to determine what is central in the Christian proclamation we are tempted to represent as the kernel or essence of this proclamation that which appeals to us personally and to consider as external and dispensable framework that which is strange to us it is due to the richness of the Christian message that the question as to the central element from which all the other features are to be explained arises at all and the endeavor to determine this central element must be designated the one great task of New Testament scholarship and perhaps of all Christian theology from the foreword

A new kind of Bible study after the success of her first two books Heather Holleman received

many requests to write a bible study and as a college english instructor she wanted to make sure it really taught and didn't simply inform so she surveyed several women about what their dream study would look like then got to work the result is included in *Christ a narrative driven study* where you can bring your life before scripture in the context of community together women will discern their personal shadow narratives ways they are living outside of their identity in christ and then rewrite those narratives according to biblical truth this in depth 8 week study in ephesians will equip women with six signature stories of god's work in their lives helping them combat exclusion loneliness weakness decay emptiness and silence designed to facilitate honest sharing and help you internalize biblical truth included in *Christ* will provide community and connectedness as well as spiritual nourishment it will also guide you in how to share your story and the hope of christ with someone who doesn't yet know him

as christians become more engaged with the reality of religious pluralism many find themselves torn between two worthy goals to be faithful to the lordship of jesus christ and to be open generously to possible truths found in other religions the first and the last offers a constructive way forward showing how christian theology can bring these two goals together this is a challenging and important book at stake in the current debate over religious pluralism is the issue not only of evangelism and mission but also of the christian claim to the uniqueness of jesus christ george sumner leads readers through both the challenges and possibilities raised by this debate and he outlines a distinctive new method for assessing from a christian standpoint the claims and practices of neighboring faiths the crux of sumner's approach is a position he calls *final primacy* a position that 1 sets non christian religions in relation to the unique mediating role of jesus christ and 2 relates their truth claims to the overall scheme of grace sumner shows the effectiveness of this position in practical terms using *final primacy* as a frame of reference for a number of twentieth century theologies namely those of barth rahner and pannenberg and as a way of examining both indian and african theologies against their respective backgrounds of hinduism and tribal practices additionally the book serves as an excellent introduction to the history of interfaith thought sumner surveys the ways religious pluralism has been handled in the past including its treatment in the enlightenment period in the work of figures like schleiermacher lessing smart and konstantine sumner ends his work by facing head on the difficult question of *dialogue* *final primacy* he says redefines the mean of dialogue even as it promotes it and he tells how in most thought provoking terms both provocative and stimulating the first and the last provides valuable reading for anyone interested in theology interfaith dialogue and missions

was christ's human nature fallen even sinful from the 18th century to the present this view has become increasingly prominent in reformed theological circles and beyond despite vigorous opposition both sides on the issue see it as vital for understanding the nature of salvation each side's advocates appeal to or critique the church fathers this book reviews the history and present state of the debate then surveys the connections distinctions and patristic interpretations of five of the modern *fallenness* view's proponents edward irving karl barth t f torrance colin gunton and thomas weinand and five of its opponents marcus dods the elder a b bruce h r mackintosh philip hughes and donald macleod the book verifies the views of the ten most cited fathers five greek irenaeus athanasius gregory nazianzen gregory nyssen and cyril of alexandria and five latin tertullian hilary of poitiers ambrose augustine and leo the great the study concludes by sketching the implications of its findings for the doctrines of the immaculate conception sin sanctification and scripture
