this book sets out a thematic presentation of human action especially as it relates to morality in the three most significant figures in medieval scholastic thought thomas aquinas john duns scotus and william of ockham

reconstructing in detail the older stoic theory of the psychology of action this book discusses its relation to aristotelian epicurean platonic and influential modern theories

in on human action and practical wisdom yang guorong offers a description of his concrete metaphysics this system seeks to overcome traditional metaphysical problems by providing a concrete basis which serves as both the starting point and the final determining factor for metaphysics yang gives a discussion of wisdom and practical action that begins in our everyday activities and social relationships is extended to form

universal principles and finally refers back to actual situations for determining appropriateness based on his unification of ontology epistemology and axiology yang thus attempts to overcome the one sided understanding of action in modern western philosophy targeting in particular the excessively linguistic logical and abstract focus found in the american analytic tradition

description this study explores the history of ideas concerning karma predestination fate and the efficacy of human action in india s great epic the mahabharata the relative importance of human action and such external causative forces as fate time and divine interference is a problem of perennial interest to the mahabharata s innumerable composers and one which is often treated with a sense of urgency and feeling the core argument presented in the study is that despite the wide variety of views to be found in the mahabharata it is the consistent albeit varying emphasis placed by indian thinkers upon the importance and meaningfulness of human effort and freedom that most stands out given hinduism s general reputation for fatalism it is a point of some importance the reason for this would seem to lie principally with the way in which the essential concern in hindu culture for moksa and dharma effectively pre disposed hindu thinkers towards placing a high value upon power control and freedom
