according to the isc2 as an information assurance professional the candidate needs to define the architecture design management and or controls that assure the security of business environments it is a credential that demonstrates a globally recognized standard of competence which covers critical topics in security today there is a revision to the bok knowledge domains which becomes effective in january 2012 there is also a domain refresh reorganization in april 2015 our contents are compatible with this major refresh when we develop our material we do not classify topics the bok way in fact we follow our own flow of instructions which we think is more logical for the overall learning process don t worry it does

not hurt to do so as long as you truly comprehend the material

the cpp multiple choice exam has a coverage which is highly extensive in fact so extensive that i wouldn't recommend taking the exam until you are fully drilled on the relevant topics you know what i personally think soroka's book is excellent it covers all the essential information that you need to know to tackle most exam topics plus many more practical information for on the job use outside of the exam all included in a 500 page text book many cpp candidates are experienced professional who have been in the field of packaging for years that they know most of the practical how tos and all they need is to learn the principles concepts and science that are behind the practical techniques 500 pages worth of information is quite overwhelming for these busy professionals some tried to have their focus on the review questions for each chapter and as a result they found themselves missing quite many items that were in fact not covered by the chapter review questions we believe that you need to get yourself truly familiar with the most important information by going through sufficiently focused revision this is where we fill the gap you may think of our product as the unofficial supplement to soroka's book or you may view it as a standalone module with a focus on building up your exam readiness for the purpose of exam preparation you need to plan your study into a 3 stage process at the first stage you review the official soroka text give yourself one to two months to go through the text chapter by chapter then at the second stage you go through the chapter review questions finally at the third stage you use our examfocus study notes to drill on the key topics for the best possible knowledge coverage prior to taking the exam as an effective learning aid implemented in the format of study notes the examfocus cpp study notes package is designed to present information in an easy to understand conversational format notes are well written technically accurate and completely representative of the key information covered by the exam domains
