the book draws comparison between mercosur and the european union to explain variation of regionalism and to expose its limits

the project is based on the idea that contemporary examples of regionalism should be evaluated against several propositions of multiple integration theories rather than against a single theory in order to systematically explain why and how integration outcomes in mercosur differ from those in the eu the author develops an analytical framework for the comparison of the two blocs mercosur is compared with the eu by the use of the various criteria of economic interdependence economic convergence intra bloc size and interest asymmetries cultural diversity and geostrategic motivations which are identified as the salient parameters of integration theories

based on the 2024 monetary policy conference held at the hoover institution at stanford university getting global monetary policy on track reviews recent global inflation asking how central banks could have better responded and how they can improve their forecasting and policy strategies to avoid inflationary bursts in the future discussions delve into the interactions of fiscal and monetary policies digital currency and how the european central bank has become more dovish preferring to keep interest rates low the publication shares the presentations from economic experts around the globe who contribute analysis of monetary policy and strategy from asia europe latin america and the united states in large economies and in emerging markets it also reproduces the lively and informative discussions at the conference essays on financial regulation examine asset value and equity levels in the us banking system treasury market turmoil federal reserve independence the 2023 uk pension fund meltdown and regulatory expansion additional topics include labor market responses to the surge in remote work how israel handled financial shocks following the 2023 hamas attack and continued fallout from the covid 19 pandemic the supply fiscal and relative demand shocks of the pandemic and how central banks handled postpandemic inflation

it has been around since the first rear impact automobile accident and it will continue to be a problem as long as humans have large heavy heads perched on slender highly mobile cervical spines the subject is whiplash and some of the brightest minds on the topic gathered in banff alberta canada for the eighth international symposium by the physical medicine research foundation editor dr murray e allen chairman of the symposium has collected the findings in musculoskeletal pain emanating from the head and neck current concepts in diagnosis management and cost containment to help physicians physical therapists chiropractors and researchers better understand the new whiplash make reliable clinical assessments and provide more effective treatment this thorough collection includes bump studies with human volunteers research into safer automobile seat backs and head restraints postmortem cervical spine examinations reviews of the literature and other investigations from around the world readers of musculoskeletal pain emanating from the head and neck will learn specifically about injury mechanisms threshold for
