choices. Presenting the same product with slightly different wording resulted in significantly different purchasing rates. This highlights the need for a nuanced approach to marketing one that acknowledges the irrational aspects of human decision making. A life cycle assessment (LCA) of a typical smartphone reveals its significant environmental footprint, from mining rare earth minerals to manufacturing and e-waste disposal. This exemplifies the need for greater transparency and accountability within supply chains to minimize the hidden environmental burdens associated with consumer goods. We need to move beyond a linear 'take-make-dispose' model of consumption. Advocates like Dr. Jane Goodall, renowned primatologist and environmental activist, argue we must shift towards a circular economy that prioritizes resource efficiency and waste reduction.
