nationalism in stateless nations explores national identities and nationalist movements since
1967 using the examples of scotland and newfoundland adding to the debate about
globalisation and the future of the nation state the book argues that ethnically rooted
nationalism in modern liberal democracies need not as argued by theories of classic
nationalist movements strive for full independence in fact nationalist movements are

adapting to circumstances by becoming autonomist rather than separatist pragmatic rather than dogmatic and the book illustrates how Scotland and Newfoundland both previously independent countries are excellent examples of this building on theories of national identity formation and nationalism it traces the development of cultural and political nationalism and changing images of the national self with a focus on important fomenting factors and actors intellectuals political parties and the media the book combines historical sociological political and media studies analyses in an interdisciplinary investigation providing a comprehensive account of the waxing and waning of nationalism
