the first three years of life play a crucial role in setting the stage for later adjustment and success for children with disabilities children at risk and even for healthy infants and toddlers born into well functioning families support and early intervention can foster optimal growth and development this concise and readable guide presents a developmentally sound framework for strengths based intervention with parents and

young children the volume is filled with practical suggestions for building positive family relationships cultivating parental knowledge and understanding of child development and enhancing family support systems also featured is an extensive annotated bibliography that describes a wealth of additional resources for professionals and parents grounded in research and informed by wisdom from the field this book provides essential knowledge and skills for professionals and students across a range of health care social service and educational disciplines

the handbook of infant toddler and preschool mental health assessment brings together for the first time leading clinical researchers to provide empirically based recommendations for assessment of social emotional and behavior problems and disorders in the earliest years each author presents state of the art information on scientifically valid developmentally based clinical assessments and makes recommendations based on the integration of developmental theory empirical findings and clinical experience though the field of mental health assessment in infants and young children lags behind work with older children and adults recent scientific advances including new measures and diagnostic approaches have led to dramatic growth in the field the editors of this exciting new work have assembled an extraordinary collection of chapters that thoroughly discuss the conceptualizations of dysfunction in infants and young children current and new diagnostic criteria and such specific disorders as sensory modulation dysfunction sleep disorders eating and feeding disorders autistic spectrum disorders anxiety disorders posttraumatic stress disorder and adhd chapters further highlight the importance of incorporating contextual factors such as parent child relationship functioning and cultural background into the assessment process to increase the validity of findings given the comprehensiveness of this groundbreaking volume in reviewing conceptual methodological and research advances on early identification diagnosis and clinical assessment of disorders in this young age group it will be an ideal resource for teachers researchers and a wide variety of clinicians including child psychologists child psychiatrists early intervention providers early special educators social workers family physicians and pediatricians

this volume extends the knowledge base supporting research informed child care for infants and toddlers while simultaneously highlighting areas of study ripe for future research the authors demonstrate from a systems perspective that the experiences and outcomes of very young children in child care are influenced by characteristics of and interactions between the children adults and settings varying methodological approaches as well as the utilization of newer data collection instruments inform the field's understanding of current practices and procedures while offering guidance for future programming and policy in turn the chapters highlight a plethora of open questions and a need for a new generation of research to support the field of infant toddler care future challenges are evident in the recognition of the inadequate nature of our current measures of child outcomes and classroom processes the field's unmet promise to incorporate interdisciplinary perspectives and the need for newer methodological designs that blend the strengths of quantitative and qualitative

approaches these issues are important given the growing demand for infant toddler care and the increasing recognition of the unique role of this age period in serving as the foundation for all later development this book was originally published as a special issue of early education and development

as infants become toddlers their expanding sense of self growing motor language and cognitive skills provide opportunities for learning more about the physical and social world around them this book is a valuable resource for advancing a child s sense of self cultural identity social relationships and connectedness to community through developmentally appropriate activities carla b goble has a ms and phd in child development from oklahoma state university and a bs in education from the university of central oklahoma she is an award winning early childhood educator founding member of the oklahoma early childhood education organization

the editors of this book have brought together contributors from many parts of the world as such the book offers a truly diverse international flavour reflecting a broad range of research on babies and toddlers examining examples from both eastern and western cultures the book s overarching focus is on relationships yielding a coherence beneficial to early childhood researchers and educators alike employing visual methodologies to help bring the chapters to life the varied research studies presented concern babies and toddlers relationships and cultural contexts taken together they offer a unique opportunity to conceptualise the use of a wholeness approach for studying babies and toddlers our youngest citizens

this volume extends the knowledge base supporting research informed child care for infants and toddlers while simultaneously highlighting areas of study ripe for future research this book was originally published as a special issue of early education and development

this publication deals with the present crisis in infant toddler care it presents information on infant toddler development and optimal caregiving paractices citing recent research on appropriate practices and the impact of poor versus quality care the book is divided into two sections in the first section development and program implications for infants toddlers and families four chapters cover 1 the baby birth to 12 months alice sterling honig 2 the second year 12 to 24 months kathryn castle 3 toddlers 24 to 36 months nancy balaban and 4 quality integrated programs for infants and toddlers with special needs david sexton the chapters in the second section issues and dilemmas confronting infants toddlers and families deal with 5 health issues in a changing society veronica d feeg 6 infant day care michael f kelley and elaine surbeck and 7 policy issues affecting infants toddlers and their families eleanor stokes szanton a postscript by elaine surbeck concludes the volume jd

parents and caregivers often seek ways to stimulate their little learners but don t know where to start while many conveniences have come our way in the digital age none has made the process of guiding children through their years of growth and

development any quicker easier or less complex fun baby learning games brings a new approach to having fun and learning

discusses the development of children s social and emotional competence and provides an overview of children s temperaments shows caregivers how to watch ask and adapt to children to provide sensitive responsive care looks at how caregivers can help a child in a new child care setting and reduce separation anxiety

a guide to training personnel to function as a team when working in programs that provide services to infants young children and their families
