were likewise canonical in their influence on buddhist art representations of these stories can be found across asia from kizil in china to sanchi in india to borobudur in indonesia it is not hyperbole to say that these are some of the most influential stories in the history of buddhism the stories presented here among the first texts to be inscribed by buddhists highlight the moral economy of karma illustrating how gestures of faith especially offerings can bring the reward of future happiness and ultimately liberation

although buddhism is often depicted as a religion of meditators and philosophers some of the earliest writings extant in india offer a very different portrait of the

buddhist practitioner in indian buddhist narratives from the early centuries of the common era most lay religious practice consists not of reading praying or meditating but of visually engaging with certain kinds of objects these visual practices moreover are represented as the primary means of cultivating faith a necessary precondition for proceeding along the buddhist spiritual path in thus have i seen visualizing faith in early indian buddhism andy rotman examines these visual practices and how they function as a kind of skeleton key for opening up buddhist conceptualizations about the world and the ways it should be navigated rotman s analysis is based primarily on stories from the divyavadana divine stories one of the most important collections of ancient buddhist narratives from india though discourses of the buddha are well known for their opening words thus have i heard for buddhist teachings were first preserved and transmitted orally the divyavadana presents a very different model for disseminating the buddhist dharma devotees are enjoined to look not just hear and visual legacies and lineages are shown to trump their oral counterparts as rotman makes clear this configuration of the visual fundamentally transforms the world of the buddhist practitioner changing what one sees what one believes and what one does
