originally published in 1973 the history of french tragedy and tragicomedy from their origins in the sixteenth century to the last years of louis xiv s reign is here surveyed in a single volume beginning with a brief account of the development of drama from the middle ages to the renaissance dr brereton examines the plays as types of drama the circumstances in which they were produced and their reception by contemporaries the traditionally great figures of corneille and racine are treated at some length but their work is seen in perspective against the plays of their predecessors and of their own time garnier and montchrestien are discussed among others as notable writers of renaissance humanist tragedy sections are devoted to secondary but still important dramatists such as mairet rotrou du ryer tristan l hermite thomas corneille and quinault a long chapter on alexandre hardy reviews the work of this neglected author and stresses his interest as a transitional link between the two centuries and as a vigorous pioneer of a type of drama which flourished for several decades after him concurrently with french classical tragedy the main currents of critical theory social attitudes and stage history are
