economic development and urban growth are the contested grounds of urban politics business elites and politicians tend to forge pro growth coalitions centered around downtown development while progressive and neighborhood activists counter with a more balanced approach that features a strong neighborhood component urban politics is often shaped by this conflict which has intellectual as well as practical dimensions in some cities neighborhood interests have triumphed in others the pro growth agenda has prevailed in this illuminating comparative study barbara ferman demonstrates why neighborhood challenges to pro growth politics were much more successful in pittsburgh than they were in chicago operating largely in the civic arena pittsburgh s neighborhood groups encountered a political culture and institutional structure conducive to empowering neighborhood progressivism in housing and economic development policymaking in contrast the pro growth agenda in chicago was challenged in the electoral arena which was dominated by machine ward based politicians who regarded any independent neighborhood organizing as a threat consequently neighborhood demands for policymaking input were usually thwarted besides revealing why the development policies of two important american cities diverged ferman s unique comparative approach to this issue significantly expands the scope of urban analysis among other things it provides the first serious study to incorporate the civic sector neighborhood politics as an important component of urban regimes ferman also emphasizes institutional and cultural factors often ignored or relegated to residual roles in other studies and expounds on their influence in shaping local politics and policy to add an analytical and normative dimension to urban analysis she focuses on the non elite actors not just the economic and political elites who compose governing coalitions ultimately ferman takes a more holistic and balanced view of large cities than is typical for urban studies as she argues that

neighborhoods are an important integral part of what cities are and can be for that reason especially her work will have a profound impact upon our understanding of urban politics

she draws on extensive interviews city council proceedings and historic plats and photographs to construct a detailed picture of how these districts originally looked and were used how they were renovated and to what ends they were marketed
