the field of early literacy has seen significant recent advances in theory research and practice these volumes bring together leading authorities to report on current findings integrate insights from different disciplinary perspectives and explore ways to provide children with the strongest possible

literacy foundations in the first 6 years of life the handbook first addresses broad questions about the nature of emergent literacy summarizing current knowledge on cognitive pathways biological underpinnings and the importance of cultural contexts chapters in subsequent sections examine various strands of knowledge and skills that emerge as children become literate as well as the role played by experiences with peers and families particular attention is devoted to the challenges involved in making schools work for all children including members of linguistic and ethnic minority groups and children living in poverty finally approaches to instruction assessment and early intervention are described and up to date research on their effectiveness is presented

this book is an authoritative examination of summer learning loss featuring original contributions by scholars and practitioners at the forefront of the movement to understand and stem the summer slide the contributors provide an up to date account of what research has to say about summer learning loss the conditions in low income children s homes and communities that impede learning over the summer months and best practices in summer programming with lessons on how to strengthen program evaluations the authors also show how information on program costs can be combined with student outcome data to inform future planning and establish program cost effectiveness this book will help policymakers school administrators and teachers in their efforts to close academic achievement gaps and improve outcomes for all students book features empirical research on summer learning loss and efforts to counteract it original contributions by leading authorities practical guidance on best practices for implementing and evaluating strong summer programs recommendations for using program evaluations more effectively to inform policy contributors emily ackman allison atteberry catherine augustine janice aurini amy bohnert geoffrey d borman claudia buchmann judy b cheatham barbara condcliffe dennis j condron scott davies douglas downey ean fonseca linda goetze kathryn grant amy heard michelle k hosp james s kim heather marshall jennifer mcombs andrew mceachin dorothy mcleod joseph j merry emily milne aaron m pallas sarah pitcock alex schmidt marc l stein paul von hippel thomas g white doris terry williams nicole zarrett a comprehensive look at what s known about summer s impact on learning and achievement it is a wake up call to policymakers and educators alike jane stoddard williams chair horizons national provides the reader with everything they didn t know about summer learning loss and also provides information on everything we do know about eliminating summer learning loss do your school a favor and read this book and then act upon what you have learned richard allington university of tennessee

the future of children is a new semiannual publication that provies research and analysis to promote effective policies and programs for children this first issue focuses on school readiness closing racial and ethnic gaps for more than 30 years researchers have seen white children outperform black and other minority children in tests of reading and math skills though there is evidence that the gap has narrowed somewhat the very persistence of this racial and ethnic gap remains a source considerable concern for academics policy professionals and parents the ethnic and racial gaps appear to reach

back to the preschool years when children reach the school door minority children exhibit lower school readiness skills at least those measured by standardized tests than their white counterparts from that point forward the achievement gap only widens if policy professionals are to address this disparity in academic achievement and the consequent disparity in later opportunity the racial and ethnic gap must be examined in the very earliest years before students begin school with embedded inequalities this volume critically summarizes the research on the origin and trajectory of the racial and ethnic gap in the early years from several theoretical perspectives in particular research is analyzed to determine when these differences start to emerge in what areas they appear what factors contribute to their development by the time children enter grade school and what are the long term effects contents introducing the issue of test score ethnic and racial disparities jeanne brooks gunn sara mclanahan and cecilia elena rouse identifying racial and ethnic differences in school readiness donald rock and jack stenner test score gaps the contribution of family and neighborhood characteristics greg duncan and katherine magnuson genetic differences and school readiness william t dickens neuroscience perspectives on disparities in school readiness kim noble b j casey and nim tottenham low birth weight and school readiness nancy reichman the impact of health on school readiness janet currie parenting jeanne brooks gunn and lisa markman childcare and early education katherine magnuson and jane waldfoegel

this report presents key data that measure the condition of education in the united states and other nations the data allow users to monitor important developments and discern trends in education a wide variety of areas are covered including reading writing and mathematical proficiency organization and management of educational institutions college costs and family income racial and ethnic distribution voting behavior by educational attainment and the student s transition from high school to the workforce a series of essays discusses critical issues facing the nation s educational system these essays are followed by a presentation of six different education indicators access participation and progress achievement attainment and curriculum economic and other outcomes of education organization and management of educational institutions climate and diversity of educational institutions and financial and human resources of educational institutions

the children of mexican immigrant families are the fastest growing population in american schools today education can be the key to a better quality of life especially for a population that faces breathtakingly high poverty rates and few other opportunities for social mobility but these children are too frequently considered at risk academically what more can be done to help them succeed mexican roots american schools offers a fresh take on this timely and critically important issue by focusing on the first years of elementary school and the complex interplay of learning with other aspects of children s lives its social policy recommendations will be essential reading for educators policymakers and parents alike based on the first ever national study of the school readiness of mexican immigrant children this book examines how various aspects of their lives including health

the home environment and childcare arrangements help or hurt their academic performance drawing a comprehensive picture it shows that these children start school behind their peers and only fall farther behind over the years the author forcefully maintains that this situation does not need to continue crosnoe outlines which factors make the most difference and recommends policy initiatives that would help change things in addressing educational inequality we need to target the earliest years of school and pre school programs offer resource centers and services for students and parents and consider how health and home inevitably seep their way into the schools

this concise introduction to the sociology of education demonstrates that differences between and within schools homes and peer groups are related in systemic ways to differences in educational outcomes addressing both empirical data and important theoretical concepts it explores the impact that equality and achievement can have on academic success extensive coverage of thought provoking topics such as school size tracking reform and restructuring youth cultures parental involvement and single parent households the author examines equality and achievement in education methodological issues differences between homes differences between schools differences within schools group differences and maximizing achievement and equality for individuals interested in a concise introduction to sociology of education

more than 30 highly respected experts contribute cutting edge information to give readers a comprehensive look at early education and kindergarten transition

the first book to capture the debates surrounding head start in all their complexity and diversity this landmark volume will help readers understand the role of these controversies in the program s past and their influence on its future two head start experts bring together the research and personal experience of leaders in a wide range of fields including education research medicine and social work this powerful compilation of voices mines head start s history for mistakes made and lessons learned presents a multifaceted view of where the program should be headed and offers contrasting viewpoints on three major issues goals explores different opinions about three ways of thinking about head start s goals cognitive development versus school readiness social competence short term versus long term progress and antipoverty tool versus child development program effectiveness presents views on the impact of head start on children s school readiness and success health and family functioning and discusses how research might be improved so outcomes in these areas can be more meaningfully assessed future directions explains positions on where head start should be headed as it approaches its fifth decade opinions are offered on quality improvement the timing and duration of early intervention administrative changes and head start s capacity for meeting child care needs and expanding access to preschool services this comprehensive forward thinking book will help readers understand the complexity of head start clarify the multiple sides of the debates that have long surrounded it and shape effective social policy for america s most at risk children and their

families book jacket

it is well known that the number of non english speakers is on the rise in the united states what is less well known is that the largest proportion of this population is children under the age of 5 these young english language learners ells often demonstrate achievement gaps in basic math and reading skills when they start school how best to educate this important and growing preschool population is a pressing concern for policymakers and practitioners the chapters in this important book provide up to date syntheses of the research base for young ells on critical topics such as demographics development of bilingualism cognitive and neurological benefits of bilingualism and family relationships as well as classroom assessment and teacher preparation practices each chapter reviews the research and answers the following questions what does the research clearly indicate for policy and practice how solid is this database and what findings are emerging what should the research agenda be for young ells
