as we continue in an era of simultaneous innovation and commoditization enabled by digital technologies managers around the world are asking themselves how can we both adapt to rapid changes in technology and markets and still make enough money to survive and thrive to provide answers to these important and urgent questions mit sloan school of management professor michael cusumano draws on nearly 30 years of research into the practices of global corporations that have been acknowledged leaders and benchmark setters including apple intel google microsoft toyota sony panasonic and others in a range of high technology services and manufacturing industries these companies have also encountered major challenges in their businesses or disruptions to their core technologies if we look deeply enough he contends we can see the ideas that underpin the management practices that make for great companies and drive their strategic evolution and innovation capabilities from his deep knowledge of these organizations cusumano distils six enduring principles that he believes have been in various combinations crucial to their strategy innovation management practices and ability to deal with change and uncertainty the first two principles platforms not just products and services especially for product firms are relatively new and broader ways of thinking about strategy and business models based on cusumano s latest research the other four capabilities not just strategy or positioning the pull concept not just push economies of scope not just scale and flexibility not just efficiency all contribute to agility which is a mix of flexibility and speed many practices associated with these ideas such as dynamic capabilities just in time production iterative or prototype driven product development flexible design and manufacturing modular architectures and component reuse are now commonly regarded as standard best practices these six enduring principles are essential in a new world dominated by platforms

and technology enabled services

few people have any coherent idea of whether the shifts taking place in land use structure are critically important for us all or whether they are largely immaterial this book originally published in 1981 by setting down a more quantified and carefully researched statement and appraisal of land use structure and change than had previously been attempted shows that much of the conventional wisdom about land use can be shown to be incorrect or very suspect land use planning has often been built on the insecure foundation of myth rather than reality the author maintains land use and living space shows that much of the perceived land problem in britain is not substantiated by evidence on the ground and concludes that there is no real problem at all this analysis was a welcome contribution to the debate during the 1970 and 80s about the true state of land use in britain europe and the usa

when you re dealing with any piece of real estate in massachusetts you need to understand the applicable land use regulations and cases this revised fourth edition of mark bobrowski s handbook of massachusetts land use and planning law provides all the insightful analysis and practical expert advice you need with detailed coverage of such important issues as affordable housing special permit and variance decisions zoning in boston nonconforming uses and structures administrative appeal procedures enforcement requests building permits vested rights agricultural use exemptions current tests for exactions slapp suit procedures impact fees civil rights challenges helpful tables facilitate convenient case law review while forms and extensive cross references add to the book s usefulness previous edition handbook of massachusetts land use and planning law third edition isbn 9781454801474

teaching materials and the roles of efl esl teachers is published amidst a decade long increase in academic publications and training courses concerned with the evaluation and design of english language teaching materials it is timely to consider what effect the advice on offer has had on teachers practice are teachers evaluating materials carefully using textbooks in the ways expected by textbook writers developing their own materials and mediating between materials and learners in the ways advised in the professional literature the book explores these issues from a variety of perspectives the views of publishers textbook writers those contributing to the professional literature and teacher educators are synthesised to establish a theory of how teachers can best fulfil

their roles vis à vis materials and learners this is then compared with practice as represented by published accounts of teachers actual practices and learners perspectives the conclusion reached is that teacher education in materials evaluation and design is essential and suggestions are offered as to the form this might take the book is intended particularly for ma students and teacher educators concerned with materials evaluation and design but is of interest to all those concerned with the publication and use of english language teaching materials

most of the papers of this book were presented in the igu lucc 2003 moscow workshop on global and regional land use cover changes and at international conference society and environment interaction under global and regional changes which was held in barnaul altai russia in summer 2003

this report describes how strong motion records obtained from the earthquake induced motions of highway bridges may be analyzed for use in the evaluation of bridge designs and bridge design procedures this report is divided into five principal sections the first section describes strong motion instrumentation and strong motion records in the second section a mathematical model for the dynamic response of bridges to strong ground shaking is formulated the third section describes how analog records scaled by hand can be analyzed force levels throughout bridges and mathematical model parameters are found from hypothetical strong motions for two example bridges the fourth section describes how digitized records can be analyzed a linear least squares fitting procedure in the time domain for identifying mathematical model parameters from recorded strong motions is described hypothetical motions for three example bridges are analyzed using this procedure to yield best fit mathematical models the last section consists of appendices included are a more extensive introduction to dynamics of structures and listings of the programs used to identify the best fit mathematical models

bachelor thesis from the year 2013 in the subject business economics business management corporate governance language english abstract this study aims to investigate the usage of performance measures conceptualized as the bsc measures within an organizational context this research considers itself as a descriptive research the questionnaire was distributed to 46 private palestinian firms operating in ramallah from different sectors the results revealed that the usage of financial measures is still high and ranked first among the four perspectives of the bsc measures however the usage of non financial measures is

growing only reliance on financial based performance measures is inadequate in the new manufacturing environment increase awareness of the importance of non financial performance measures in providing long term value creation and long term strategic focus as well as their effects on firm performance leads to several innovations in the area of performance measurement system one of the widely known innovations in this area is called balanced scorecard bsc which has been originated by kaplan and norton in 1992 the bsc combines traditional financial measures with non financial measures through focusing on four perspectives financial customers internal business processes and learning and growth
