most entrepreneurship and small business textbooks contain few if any cases that an instructor can use with students and illustrate important theories or topics from the course this book contains cutting edge case studies that illustrate key problems confronting contemporary entrepreneurs set in familiar business environments this original set of cases provides useful insights into the experiences of real world entrepreneurs for classroom environments

the classic and dominant paradigm of entrepreneurship emphasizes the relatively universal and homogeneous responses of a small but influential minority as they make unique and breakthrough contributions entrepreneurs are often viewed as inspired individualists who possess the courage to go against the grain as they risk it all to pursue an impassioned vision according to Joseph Schumpeter and those who build upon his seminal perspectives such as entrepreneurial individuals pursue a path of creative destruction that paves the way towards true and innovative progress today state of the art research is tempering and transcending this classic vision by acknowledging a wider array of cultural psychological and environmental contexts influences and responses this monograph contributes to this research stream by viewing entrepreneurs within a cultural perspective and advocating viewing entrepreneurship in culturally competent ways presenting these perspectives in a short and circumscribed volume provides an elegant and influential means of disseminating these important perspectives entrepreneurship and culture expands beyond popular and conventional views of entrepreneurship and provides readers with alternative perspectives in even handed ways it shows the latest state of knowledge on the topic and will be of value both to advanced students and to academics and practitioners in the fields of entrepreneurship international business leadership and organizational studies beyond the business school this book will also be of interest to anthropology economic development and indigenous studies scholars

a literature review is carried out by surveying books scientific articles and other sources relevant to a particular problem field of research or theory thus it provides a description summary and critical evaluation of the literature works concerning the research problem under investigation literature reviews aim to provide an overview of the sources you have explored while surveying a particular topic and show readers how your research fits into a larger field of study nvivo is a computer software package for qualitative data processing produced by QSR International this software is designed for qualitative data processing for researchers with text based information and multimedia where small or large scale data is required nvivo can be used to help you do a literature review
