this book questions the extent to which human beings are capable of changing their physical characteristics and behavioural patterns

a 1994 collection of essays which explore the work now being done at the interface of intelligence and personality

an assessment of some ethical implications of increasing life spans taking as a starting point the idea that to increase longevity is a form of medical enhancement it examines the value of living longer the means for extending life spans the

consequences of greater longevity for the fair distribution of resources and healthcare in particular

the diamond sutra a mainstay of the mahayana tradition has fascinated buddhists for centuries because of its insights into dualism and illusion the diamond can cut through any obstacle on the road to enlightenment in the diamond sutra the buddha responds to a disciple's question about how to become a buddha the diamond that cuts through illusion presents a dialogue between the buddha and his disciple subhuti which illuminates how our minds construct limited categories of thought the answer we must move beyond personal enlightenment to follow the path of the bodhisattvas fully enlightened beings who postpone nirvana in order to alleviate the suffering of others it offers us alternative ways to look at the world in its wholeness so we can encounter a deeper reality develop reverence for the environment and more harmonious communities families and relationships and act in the world skillfully and effectively this revised edition includes thich nhat hanh's translation of the sutra from the chinese and in his commentaries his own diamond sharp insight including new work on the environmental implications of the diamond sutra a beautiful edition of one of buddhism's central texts

this book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous an examination of the literature pertaining to career development counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by western epistemologies some of the largest workforces in the world are in the developing world career guidance is rapidly emerging as a strongly felt need in these contexts if more relevant models are to be developed frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development this does not mean that existing ideas are to be discarded instead an integrative approach that blends universal principles with particular needs could offer a framework for theorizing research and practice that has wider relevance the central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and economically relevant to contemporary challenges and issues this book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling
