airasian presents complex concepts clearly so that pre service teachers can understand them and solidly grounds these concepts in best practice through practical real well integrated examples he talks to not at users the text conceives of classroom assessment in a broader way than many other texts it focuses not only on the assessment needs of testing grading interpreting standardized tests and performance assessments but also on assessment concerns in organizing a classroom at the start of school planning and implementing instruction and strategies of teacher self reflection it views classroom assessment as an everyday ongoing integral part of teaching not something that is separated from life in classrooms the text is organized in a manner that follows the natural progression of teacher decision making from organizing the class as a learning community to planning and conducting instruction to the formal evaluation of learning and finally to grading

for several decades college teachers have been asking students to engage in self evaluation to reflect on their academic work and describe and evaluate it in writing student self evaluation is both a process consisting of acts of reflecting composing and writing and a product a written document student self evaluation does not obviate the need for student exams and papers crucial indicators of student mastery of material or complexity of thinking rather student self evaluation supplements and complements that information by asking students to describe in their own words their learning and its value to them this writing and the conversations that faculty members and students have about it can be instructional illuminating and at times transformative student self evaluation is primarily a learning strategy but it is also a promising assessment approach while enriching learning for students it also can help teachers and institutions learn about student learning this volume of new directions for teaching and learning introduces the many forms of student self evaluation in undergraduate teaching settings and describes how student self evaluation creates connections between learners and learning knowers and the known and the self and the mind this is the 56th issue of the quarterly journal new directions for teaching and learning for more information on the series please see the journals and periodicals page

this book provides prospective and current teachers with a concise non technical and practical guide to conducting a full range of high quality classroom assessments the text emphasizes assessment in the context of the realities of teaching and teacher decision making as well as on how assessment is integrated with instruction assessment methods are integrated with instruction and presented according to when teachers evaluate students before during and after an instructional unit and the learning targets that are measured there is considerable emphasis on the nature of learning targets and how different assessments are most appropriate for different targets for each assessment technique suggestions for effective practice are presented with examples and case studies there are separate chapters on contemporary assessment techniques and issues such as performance and portfolio assessments as well as separate chapters on assessing affective targets and students with disabilities included in the regular classroom a balance is provided with traditional forms of assessment and the need for teachers to administer interpret and use results from standards based large scale assessments and other standardized tests

assessment is essential offers a novel approach for educational assessment courses stressing a practical approach that encourages students to think critically about designing the appropriate assessment for a wide range of situations green provides students with tools they can use in their future classrooms

the perfect way for students to assess their knowledge of biochemistry and genetics for the usmle step 1 and course exams

managing low self esteem charts windy dryden s work in running brief structured educationally orientated self acceptance groups the book is based on the principles of rational emotive behaviour an approach to counselling and psychotherapy this approach has a philosophical position in the self which stresses a person s uniqueness humanity complexity and fallibility in this way it advocates self acceptance rather than self esteem it also argues that this position can be taught and learned in a short period of time through detailed session reviews the book shows how unconditional self acceptance can be taught not only to psychotherapy clients but to members of the general public

looks at the development of interdisciplinary thematic units covering such topics as content diversity technology and classroom management

the 6th edition of cas professional standards includes functional area contextual statements examples of learning and development outcomes new standards for service learning programs health promotions internships education abroad and college honor societies revised standards for commuter off campus living housing and residence life student conduct women s programs multicultural programs clinical health services academic advising orientation and religious spiritual plus the statement of shared ethical principles and characteristics of individual excellence

standards to guide the practice by student affairs student development and student support service providers employed by institutions of higher learning page 7

this textbook for current and prospective teachers describes a variety of basic classroom teaching strategies it is organized into three main sections on planning instructing and assessing sample topics include maintaining discipline creating dialogue and using multimedia resources each of 15 chapters is augmented with sample classroom mater

discusses authentic assessment approaches for evaluating students in the multiage context

collection of essays on the changing nature of work and its components

the third edition of teaching reading comprehension processes is a comprehensive and eclectic book on teaching reading comprehension in the elementary grades the overarching goal of this text is to encourage

critical thinking and to challenge readers to examine preconceived ideas and beliefs about teaching comprehension this well researched text is a comprehensive overview of how the relationship among reader text and situation affects the reading process and why comprehension takes place the third edition explores various and contending schools of thought in reading comprehension research and successfully gives students perspective on the socio cultural influences on reading comprehension

this new edition gives students valuable practice in reading and evaluating research all major methods of research are illustrated including qualitative research content document analysis survey research observational research experimental research and program evaluation the articles deal with contemporary topics that will hold your students attention the lines in each article are sequentially numbered this allows easy reference to specific parts of the articles during classroom discussions factual questions at the end of each article encourage students to read for methodological and substantive points the answer key provides answers to the factual questions the line numbers where the answers can be found are included making the key easy to use the questions for discussion at the end of each article address broad issues of research design and overall research quality ideal for homework assignments followed by classroom discussions at the next class meeting
