what happens when 30 years of serious research reveals that everything we thought we knew about sasquatch is wrong they re not hiding they re watching and what researcher bobbie short exposes after three decades of investigation will change how you see the wilderness forever the mystery deepens why do experienced truckers report the same impossible behavior on remote highways what explains the mathematical precision found in their territorial markings and how do you account for witnesses across the continent describing identical communication methods they couldn t possibly have coordinated the answers lie buried in short s unprecedented database of encounters but they re not the answers you expect questions that will haunt you what does it mean when these creatures demonstrate knowledge that should be impossible for any undiscovered animal why do native american accounts from centuries ago perfectly match modern witness reports how do you explain documented cases of what appears to be revenge what are the implications of the strategic behaviors short uncovers the evidence you ve never heard hidden within these pages are case studies that will

make you question everything the railroad engineer's 1950 encounter that reads like science fiction but comes with documentation strategic behaviors that suggest military level intelligence communication abilities that blur the line between animal and something else family dynamics that mirror our own in terrifying ways a warning to readers this isn't entertainment short's methodology is rigorous her skepticism legendary and her conclusions unsettling she presents only what can be documented cross referenced and verified the patterns she uncovers suggest we may be dealing with something far more complex than a missing link for those who dare to know if you've ever felt watched in the wilderness if you've heard sounds that didn't belong if you've wondered what's really out there in north america's vast remote areas this book contains answers but once you know what short discovered you'll never look at a tree line the same way again some mysteries are better left unsolved this isn't one of them based on the largest behavioral database ever compiled featuring witness accounts that span decades and defy conventional explanation what emerges from the data will challenge everything you thought you knew about what shares our continent are you prepared for what three decades of serious research reveals read at your own risk

between 1970 and 2000 stanford university enabled and supported an interdisciplinary community of organizations training research and theory building this title summarizes the contributions of the main paradigms that emerged at stanford in those three decades and describes the sociological conditions under which this environment came about

this book is a representation of every visual image i have been able to acquire that has been claimed as evidence of the sasquatch at one time or another many more filming cases are presented in written form only where the picture described was unavailable every last case involving filming that is personally known to me at this time is included here though i'm sure there are still more that have eluded me

the british paranormal investigator recounts his five year journey through america in pursuit of the monstrous unknown in this memoir for centuries people across the world have had a fascination with monsters and strange creatures they marvel at the tales and legends of the bigfoot of the pacific northwest of the abominable snowman of the himalayas of the infamous and diabolical moth man of west virginia of fire breathing dragons and of those dark denizens of the deep lake monsters and sea serpents but do such creatures really exist can it be true that our planet is home to fantastic beasts that lurk deep within its forests and waters memoirs of a monster hunter proves the answer is a resounding yes in this follow up to his wildly successful three men chasing monsters paranormal investigator and author nick redfern chronicles his surreal road trip through the united states and beyond in search of all things monstrous his strange adventures lasted five years and saw him doggedly pursuing a menagerie of creatures including gargoyles giant birds and what some believe are living dinosaurs follow redfern as he explores the el yunque rainforest of puerto rico in search of the terrifying chupacabras a razor clawed glowing eyed beast that is part giant bat and part vampire seeks out the goat man a menacing creature that evokes imagery of both demons and the fabled cloven hoofed centaurs of ancient mythology and is said to inhabit the forests of east texas chases after what many people believe are real life flesh and blood werewolves that surface from hidden lairs and prowl the countryside when the moon is full part x files part crocodile hunter with a mix of jurassic park and fear and loathing in las vegas memoirs of a monster hunter takes you on a roller coaster ride into the unknown read personal accounts of the monsters that inhabit your wildest

imagination and your worst nightmares the creatures you were told couldn't possibly exist really do praise for memoirs of a monster hunter this is one of the best books i've read in years redfern sweeps you away on his personal adventure around the world from romance to ghastly beasts to the cosmos redfern has candidly shared the wonders of his young life joshua p warren author of pet ghosts and how to hunt ghosts

although the bigfoot phenomena has fascinated humanity around the world throughout history the patterson gimlin film shot in 1967 most certainly caught the world's attention like never before however what most people don't know is that the famous film also kicked off a carefully thought out game plan implemented by the bigfoot forest people in order to accomplish a life saving agenda regarding the bigfoot forest people there are never any accidents they do everything with intention and purpose on july 1 2000 dr matthew a johnson and his family encountered a bigfoot on the mountain above the oregon caves national park since that world famous encounter occurred dr johnson spent sixteen years of his life pursuing the bigfoot forest people with persistence and relentless commitment he transitioned from an aggressive old school paparazzi money shot researcher to a habituator and on to an interactionist bigfoot a fifty year journey come full circle ties several stories and experiences together to help explain who the bigfoot forest people are where they come from and why they're here in short there is no other bigfoot book out this like this one you are one hundred percent guaranteed that this book will overwhelm you with the truth and promises to blow your mind in the process the bigfoot research community is going to change in a major positive direction
