mexican history is a comprehensive and innovative primary source reader in mexican history from the pre columbian past to the neoliberal present chronologically organized chapters facilitate the book s assimilation into most course syllabi its selection of documents thoughtfully conveys enduring themes of mexican history land and labor indigenous people religion and state formation while also incorporating recent advances in scholarly research on the frontier urban life popular culture race and ethnicity and gender student friendly pedagogical features include contextual introductions to each chapter and each reading lists of key terms and related sources and guides to recommended readings and based resources

the city is a complex object some researchers look at its shape others at its people animals ecology policy infrastructures buildings history art or technical networks some researchers analyse processes of in or exclusion gentrification or social mobility others biological evolution traffic flows or spatial development many combine these topics or add still more topics beyond this list some projects cross the boundaries of research and practice and engage in action research while others pursue knowledge for the sake of curiosity this volume embraces this variety of perspectives and provides an essential collection of methodologies for studying the city from multiple interdisciplinary and transdisciplinary perspectives we start by recognizing that the complexity of the urban environment cannot be understood from a single vantage point we therefore offer multiple methodologies in order to gather and analyse data about the city and provide ways to connect and integrate these approaches the contributors form a talented network of urban scholars and practitioners at the forefront of their fields they offer hands on methodological techniques and skills for data collection and analysis furthermore they reveal honest and insightful reflections from behind the scenes all methodologies are illustrated with examples drawn from the authors own research applying them in the city of amsterdam in this way the volume also offers a rich collection of amsterdam based research and outcomes that may inform local urban

practitioners and policy makers altogether the volume offers indispensable tools for and aims to educate a new generation of interdisciplinary and transdisciplinary minded urban scholars and practitioners

searching for health information may be the most important type of search a librarian performs in a day instead of starting a health care search with a blank computer screen or simply accessing ordinary information available most anywhere on the start with help from the prestigious medical library association each entry will show you how an experienced health sciences librarian would approach the question

writing the american past reproduces dozens of untranscribed handwritten documents offering students the opportunity to transcribe decipher and interpret primary sources documents include diary entries from massachusetts in the 1690s a woman detailing the great awakening an eighteenth century treaty with native americans a journal describing antebellum train travel and a letter by a slave skillfully teaches students to engage with the raw material of pre 1877 us history the written document an introduction and headnotes to each document contextualize the sources and provide a foundation from which the student can explore the material

interest in compromise has recently grown both in public and scholarly debates however there is a lack of interdisciplinary dialogue on the topic this volume fills this gap by bringing together contributions from various relevant disciplines they show that compromise has been a central technique to regulate social and political conflicts in different contexts in a compromise the conflicting parties create an agreement by making mutual concessions but do not give up their original claims therein lies the capacity of compromise to prevent or end escalated conflicts even in situations in which disagreements cannot be transformed into a consensus in addition to theoretical investigations of the concept the volume includes case studies on europe in the middle ages in the 19th and 20th centuries and on pre modern and contemporary japan the overarching question is about the preconditions of compromises the authors examine the role of compromise in diplomacy politics trade economics and everyday life together they generate a comprehensive picture of the capacities and limitations of compromise in the past and today

includes annual reports
