students of literary theory have been well provided for by the publication of various readers in literary theory however the relation between theory and critical practice still presents a problem to the general reader this book brings together essays by major critics which apply theory to practice in an accessible way this will help a general literary readership gain a better understanding of the various types of theoretical criticism see theory being applied to practice powerfully and persuasively and encourage students to use theory in their own critical writing

innovations and challenges in grammar traces the history of common understandings of what grammar is and where it came from to demonstrate how rules are anything but fixed and immutable in doing so it deconstructs the notion of correctness to show how grammar changes over time thereby exposing the social and historical forces that mould and change usage the questions that this book grapples with are can we separate grammar from the other features of the language system and get a handle on it as an independent entity why should there be strikingly different notions and models of grammar are they in compatible which one or ones fit s best the needs of applied linguists if we assume that applied linguists address real world problems through the lens of language and which one s could make most sense to non specialists if grammar is not a fixed entity but a set of usage norms in constant flux how can we persuade other professionals and the general public that this is a positive observation rather than a threat to civilised behaviour this book draws upon both historical and modern grammars from across the globe to provide a multi layered picture of world grammar it will be useful to teachers and researchers of english as a first and second language though the inclusion of examples from and occasional references to other languages french spanish malay swedish russian welsh burmese japanese is intended to broaden the appeal to teachers and researchers of other languages it will be of use to final year

undergraduate postgraduate and doctoral students as well as secondary and tertiary level teachers and researchers in applied linguistics second language acquisition and grammar pedagogy
