few outsiders realize that student illness is frequently and ironically a by product of medical training this unique study by a medical doctor and trained anthropologist debunks popular

myths of expertise and authority which surround the medical establishment and asks provoking questions about the acquisition and dissemination of knowledge within the field in detailing all levels of basic training in a London medical school the author describes students' official activities that is what they need to do to qualify as well as their unofficial ones such as their social life in the bar this insider's exposé should prompt a serious reconsideration of abuses in a profession which has a critical influence over untold lives in particular it suggests that the structures and discourses of power need to be re-examined in order to provide satisfactory answers to sensitive questions relating to gender and race the dialogue between doctor and patient and the mental stability of students under severe stress
