today jazz is considered high art america s national music and the catalog of its recordings its discography is often taken for granted but behind jazz discography is a fraught and highly colorful history of research fanaticism and the intense desire to know who played what where and when this history gets its first full length treatment in bruce d epperson s more important than the music following the dedicated few who sought to keep jazz s legacy organized epperson tells a fascinating story of archival pursuit in the face of negligence and deception a tale

that saw curses and threats regularly employed with fisticuffs and lawsuits only slightly rarer epperson examines the documentation of recorded jazz from its casual origins as a novelty in the 1920s and 30s through the overwhelming deluge of 12 inch vinyl records in the middle of the twentieth century to the use of computers by today s discographers though he focuses much of his attention on comprehensive discographies he also examines the development of a variety of related listings such as buyer s guides and library catalogs and he closes with a look toward discography s future from the little black book to the full featured online database more important than the music offers a history not just of jazz discography but of the profoundly human desire to preserve history itself
