a comprehensive and up to date review of the field provides detailed and thorough discussions of all the key topics in the study of eating disorders zafra cooper department of psychiatry oxford university

highlights local history to tell a national story about the evolution of the women s health movement illuminating the struggles and successes of bringing feminist dreams into clinical spaces the women s health movement in the united states beginning in 1969 and taking hold in the 1970s was a broad based movement seeking to increase women s bodily knowledge reproductive control and well being it was a political movement that insisted that bodily autonomy provided the key to women s liberation it was also an institution building movement that sought to transform women s relationships with medicine it was dedicated to increasing women s access to affordable health care without the barriers of homophobia racism and sexism but the movement did not only focus on women s bodies it also encouraged activists to reimagine their relationships with one another to develop their relationships in the name of personal and political change and eventually to discover and confront the limitations of the bonds of womanhood this book examines historically the emergence development travails and triumphs of the women s health movement in the united states by bringing medical history and the history of women s bodies into our emerging understandings of second wave feminism the author sheds light on the understudied efforts to shape health care and reproductive control beyond the hospital and the doctor s office in the home the women s center the church basement the bookshop and the clinic lesbians straight women and women of color all play crucial roles in this history at its center are the politics institutions and relationships created

by and within the women s health movement depicted primarily from the perspective of the activists who shaped its priorities fought its battles and grappled with its shortcomings

handbook of evidence based practice in clinical psychology volume 1 covers the evidence based practices now identified for treating children and adolescents with a wide range of dsm disorders topics include fundamental issues developmental disorders behavior and habit disorders anxiety and mood disorders and eating disorders each chapter provides a comprehensive review of the evidence based practice literature for each disorder and then covers several different treatment types for clinical implementation edited by the renowned peter sturmey and michel hersen and featuring contributions from experts in the field this reference is ideal for academics researchers and libraries

edited by high caliber experts and contributed to by quality researchers and practitioners in psychology and related fields includes over 500 topical entries each entry features suggested readings and extensive cross referencing accessible to students and general readers edited by two outstanding scholars and clinicians

poor quality of sexual and reproductive care src persists despite countries commitments to international conferences the challenges posed by the covid 19 pandemic reversed trends in maternal and neonatal mortality and contraception rates increasing unmet family planning needs and gender based violence evidence shows that midwifery care has made an essential contribution to the development of high quality services in maternal and childcare the introduction of midwifery professionals trained according to international standards and integrated into the health system can provide around 90 of primary health care for women and newborns including family planning these skilled professionals can save lives and improve the health and well being of women and newborn infants at a scale unmatched by other health interventions evidence identified 56 outcomes improved by the full scope of midwifery the weight of sexual and reproductive health on general health and wellbeing has a greater impact on women particularly those that are neglected to receive high quality src providing high quality src demands more humanized and integrated efficient and effective services with a greater emphasis on quality both from a technical perspective and from the user experience despite all the efforts the quality of src is still a challenge globally research is needed to identify best practices addressing quality care tailored to individuals implementation of models of care that enhance both well being and safety optimization of physiological processes during childbirth as well as validation of outcomes measures
