This collection is the first to bring together this unique psychological perspective on Bergman's work while Bergman and his films have been written about throughout the decades. Until now there has not been a collection anthologizing Freudian/Lacanian perspectives on his work. Vanessa Sinclair brings together an international community of scholars and practicing psychoanalysts, some of whom are also filmmakers, to reflect on Bergman's films, life, and work in philosophical, historical, and cultural contexts. They assess individual films in depth, compare multiple films, and focus on Bergman's life and work in a cultural context.
