fundamentals of forensic chemistry strives to help scientists lawyers students understand how their two disciplines come together for forensic science in the contexts of

analytical chemistry related science more generally and the common law systems of canada usa uk the commonwealth in this book forensics is considered more generally than as only for criminal law workplace health safety and other areas are included and two issues of canadian legal process are argued as essays in the final two chapters

this book analyses germany s role in the euro crisis based on the perception of berlin as the emerging capital of the european union the author investigates three interrelated issues did the german policy approach of imposing austerity programs on countries in the middle of a deep recession contribute to the successful management of the euro crisis does germany extend its sway over its european partners by forcing them to surrender to the german diktat of fiscal disziplin and economic efficiency is the stubborn insistence on rigid fiscal adjustment another ominous sign of the berlin republic moving away from the country s traditional european vocation toward an imperial leadership role the book s main argument is that germany s role in and responses to the euro crisis can best be explained by different concepts of self historical memory and institutional practices

are all the parties the same will my vote really make any difference why is politics so hard to understand if you ve ever thought any of these things you re not alone what with broken promises complicated jargon and a lack of simple and clear information is it any wonder that voter turnout is plummeting it s not that you don t care about the way the country is run it s that you don t think you can change it well you can and this book aims to show you how by setting out basic politics and answering questions we ve all asked like why do politicians lie what do ukip stand for and what s going to happen to the nhs you have a decision to make in the countdown to the may 2015 general election you have something politicians want your vote an ambassador for swingthevoteand the presenter of free speech rick edwards has written a pithy and succinct book explaining the power of your vote a refreshing counterpoint to russell brand s sentiments on voting in his latest book revolution it will make you think about politics in a completely new way

as a result of prevailing monetary conditions since the global financial crisis the world has witnessed unprecedented growth in global corporate credit markets yet despite the trillions of dollars put to work in the debt capital markets corporate credit is still an unfamiliar concept to most investors compared to other asset classes such as equities and commodities every red top newspaper and 24 hour news service is happy to report the latest twitch in the dow ftse or stoxx indices but momentous moves in the iboxx or itraxx go unmentioned and whereas many a talking head is happy to pose as an equity analyst few feel comfortable venturing into the arcana of credit yet the corporate credit market as the authors of this new book show is both materially larger than its equity peer and has shown more attractive risk reward characteristics over the last 90 odd years in opening credit career credit professionals justin mcgowan and duncan sankey aim to redress this by drawing on their more than 50 years collective experience

in the field to elucidate a practitioner's approach to corporate credit investment whilst explaining the basics of traditional credit analysis and affirming its value mcgowan and sankey also caution against its shortcomings they demonstrate the need both to penetrate the veil of accounting to get to the economic reality behind the annuals and interim numbers and to analyse the individuals that drive them the key executives and board members they employ a range of cogent and easy to follow case studies to illustrate the value of their executive and governance led approach which places management front and centre in understanding corporate credit opening credit will appeal to all those seeking a better understanding of corporate credit including analysts looking to develop their skills fund managers especially those with an eye to sri bankers ifas financial journalists academics and students of finance

analysing the politics of the 2012 london olympics stephen wagg examines the framing of london's bid to host the games arguments about the games likely impact and the establishment of fortress london to protect the games the book asks who won and who lost out in this important event as well as exploring its media coverage and legacy
