this book is designed to offer an introduction for teachers students and interested general readers to both recent theoretical and critical work in media analysis and to outline how to analyse media institutions it includes helpful suggestions for teaching practice and proposals for the construction of an alternative pedagogy

social media is a multi faceted tool that has been used by educators and or their students in ways both beneficial and detrimental despite the ubiquitous nature of this tool there is much research still needed on the multitude of ways that social media impacts education this book presents research on the influences of social media on education broadly construed specifically the research included in this book is categorized into four broad areas examining the educational influence of social media on youth and college students professional development in content areas higher education learning and social justice and activism chapter authors emphasize the opportunities of social media use in education and provide recommendations for how to address challenges that may arise with social media integration into the teaching and learning setting these authors also advocate for use of social media to grow and enhance professional interaction among educators moving beyond the social aspect of these platforms to advocate for educational and societal change individuals working in k 12 schools teacher education teacher professional development and higher education including pharmacy nursing dental and medical education as well as those in other educational settings can use these findings to support and guide integration of social media into teaching and learning as well as their professional practice

endorsements for social media influences on education anyone attempting to understand these issues and the emerging critical role of social media in education today should read the excellent edited book social media influences on education i ve been monitoring educational media and technology research and practice for the past 40 years in my view this book is an important contribution to a current perspective on social media and its impact from preschool to higher education and professional studies in general and social justice issues specifically richard e clark emeritus professor university of southern california social media influences on education is an essential book for those seeking to understand the relationship between education and social media or to conduct social media research in education griffin and zinskie have collected a variety of essays showcasing approaches to researching social media from qualitative interviews with teachers to meta analyses of nascent literature and research within the platforms themselves providing a well rounded introduction to the field this book provides a foundation for those interested in understanding and exploring the impact social media has had on elementary secondary and tertiary education naomi barnes senior lecturer queensland university of technology australia social media influences on education is a must read for anyone interested in social media s impact on education and social justice grounded in the latest research griffin and zinskie offer an informed critical perspective on key issues children s social media use cyber harassment misinformation social justice through social media professional networking and more as social media pervades every aspect of our lives educators parents students activists and social media users everywhere if you re invested in education and social justice this book is for you christine greenhow associate professor michigan state university

are you ready to integrate technology into your classroom instructional technology and media for learning will guide you as you begin to incorporate computer technology and other media into your teaching this unique case based text places the reader squarely in the classroom while providing a framework that teaches readers to apply in depth coverage of current and future computer multimedia internet intranet distance learning and audio visual technologies to classroom instruction

media education in asia is a relatively young but rapidly developing part of the curriculum research has been conducted and papers have been written on various issues concerning media education in asia the dominant models of media education in the world are broadly western and most are drawn from english speaking countries the question is whether a similar pattern exists in asia where there may be differences in culture heritage beliefs values education policy as well as curriculum and pedagogy are educators in

asia following the western model in developing and implementing media education or are they devising their own models with this question in mind this book sets out to understand the prevailing perspectives regarding media education in various asian societies while most debates about media education are carried out in western contexts this book hopes to provide a platform for readers to examine this issue in an asian context

this book emerged from the online project a manifesto for media education and takes forward its starting points by asking some of the original contributors to expand upon their view of the purpose of media education and to support their perspective with accounts of practice

this study explores the media education systems in south asia looking not just at the heavy disruption of the covid 19 pandemic but also the long standing digital inequalities and unequal socioeconomic opportunities that lead to reduced access to devices technology and digital media with a focus on eight south asian countries afghanistan bangladesh bhutan india maldives nepal pakistan and sri lanka the chapters examine the adoption of technology for pedagogical purposes during the pandemic and the underlying socioeconomic reasons behind difficulties in implementing such rapid digital transformation in the region the authors then consider how we can draw from the performance of south asian media education institutions already suffering from various digital divides during the covid 19 pandemic to apply these lessons to the broader academic community with contributions from an international team of authors this book will interest students scholars and policymakers around the world working in the areas of media literacy education studies digital media global development and sociology

technology plus classroom can equal success for students this invaluable resource for teachers presents classroom applications of media technology and the internet

introduces readers to media who creates it and why straightforward text and clear photographs gives readers the tools needed to evaluate and understand all types of media includes a hands on activity related to media literacy

in the age of social media fake news and data driven capitalism the need for critical understanding is more urgent than ever half baked ideas about media literacy will lead us nowhere we need a comprehensive and coherent educational approach we all need to

think critically about how media work how they represent the world and how they are produced and used in this manifesto leading scholar david buckingham makes a passionate case for media education he outlines its key aims and principles and explores how it can and should be updated to take account of the changing media environment concise authoritative and forcefully argued the media education manifesto is essential reading for anyone involved in media and education from scholars and practitioners to students and their parents

featuring a mix of perspectives from the field s leading scholars and advocates this volume presents a snapshot of the theoretical and conceptual development of media literacy education what has influenced it current trends and ideas about its future
