since the first superman film came to the screen in 1978 films adapted from comics have become increasingly important as a film form since that time advances in computer generated special effects have significantly improved the ability of film to capture the style and action of comics producing film such as x men and spider man

based on lakoff and johnson s theory of metaphor the author analyzes and criticizes the western model of the internal self constituted by a system of not unifiable but reifying metaphors both experts psychologists philosophers etc and lay persons draw upon this model when they refer to the self the reification of the self into separate entities leads to contradictions in the futile attempt to bridge the subject object gap the work points to social constructionism as an alternative language game that may help us overcome the confusions intrinsic to our present conceptualization of the self

representing a broad range of ethnic diversity these in depth profiles present fascinating accounts of lives and careers the circumstances under which works were produced and their literary significance each profile also includes critical evaluation a list of the author s principal works with date first published a list of major critical works and a portrait or photograph where available
