a burned out bisexual confronts old demons her estranged chosen family and the ex she maybe shouldn't have walked away from when she attends her five year college reunion charlotte thorne does not want to go back to hein university her life postcollege isn't what she expected her career in media is stalled her passion for drawing has fallen by the wayside and she's done a terrible job keeping in touch with her queer chosen family since graduation day willingly spend a full weekend with her incredibly successful classmates hard pass but when her demanding boss tech journalist roger ludermore is invited to give the commencement address at this year's graduation which falls on the same weekend as her five year reunion charlotte has no choice but to return to campus the minute she steps foot on hein property the past comes crawling back in its glory and cringe disco parties at the lgbtqia program house sleeping in a twin xl bed and her chemistry with reece krueger the hockey player she rebounded with after a traumatic breakup suddenly the weekend charlotte has dreaded for months feels like an opportunity to go back in time determined to have some fun charlotte dodges her best friend's questions about her mental health ignores her boss's constant slack messages and tries to avoid the truth about why she ghosted reece five years ago but can she really outrun her past and get her life together in seventy two hours

the authors have more than 100 years of collective experience in assisting police unions it all seemed so simple and formulaic a social movement that had been lingering for decades reached a tipping point and unions now had their greatest challenge ever the last 5 years have seen what unions would describe as apocalyptic demands for reforms union leaders ranted about a war on the police the end of the profession and increasing hostility towards the police by the liberal media and politicians unions must change the way they do business if they want to survive this book identifies the who what and why of the reform movement how to mount an effective political campaign the complexities of an effective message and the reasons police union leaders succeed and fail this book is divided into five

primary parts each of which explores a police profession under attack from reform activists left leaning media politically correct chiefs and weak mayors and councils afraid to push back against unrealistic and overreaching demands for reforms part i focuses on viewing reform as a social movement part ii examines the battle between unions and reform activists part iii unravels the mysterious world of police unions part iv predicts the future of the reform movement and police unions in light of the struggle taking place nationwide and finally part v are case studies perspectives and predictions from contributing authors who are on the front lines of the police labor movement in the u s and australia by following the superb analysis and creative ideas in this book police union leaders police management law enforcement personnel criminal justice professors and policymakers will see a path to reaching an accord on reform and advancing the police profession

this book brings to the forefront the realization that a successful police career involves not only surviving the danger involved in policing but also psychological survival in this book a mixed approach is employed that includes research and some practical suggestions from practitioners on how best to deal with the police health crisis it is based on research associated with police mental health together with the subsequent effects on officers performance physical health and lifestyle it begins by outlining the current challenges faced by police including increased civil unrest negative public reactions and a biological siege brought about by the covid 19 pandemic posttraumatic stress disorder and depression are reviewed and how these two conditions have been shown to promote negative health issues such as cardiovascular disease and gastrointestinal disorders comorbid psychological conditions as well as suicide resilience is also discussed and its role in ameliorating stress an overview of factors related to resilience is provided and some of the mechanisms that underpin resilience in police work are examined additionally suggestions are made that may help police organizations foster resiliency in officers the final chapter asks the question where do we go from here the chapter discusses current legislation that will help police deal with the problem of psychological and physical health and suicide interventions discussed include the need for wellness programs reducing stress through the police organization peers support development the use of mindfulness as a stress reduction strategy ptsd mitigation

and reducing the fatigue health effects of shift work

with renewed interest in both emergency management and homeland security disproportionate attention and resources have been focused on terrorist threats however natural hazards pose a far greater risk of death injury and property damage to the typical american jurisdiction hurricanes floods and tornadoes cause billions of dollars in damage and substantial numbers of deaths and injuries each year the aim of this book is to focus on these natural hazards and the linkage between law enforcement and emergency management it draws from criminal justice psychology public administration emergency management public health meteorology leadership and management in an effort to synthesize a wealth of knowledge to better prepare police officers to respond to the complete range of emergencies and disasters they encounter on the job emergency management for law enforcement strategies operations and tactics will help to better integrate law enforcement officers with other first responder agencies as they work together to resolve critical incidents it pulls together important information obtained from empirical research and disaster experience this knowledge is designed to help law enforcement officers deal with disasters and emergencies more effectively as important players in emergency management learning these evidence based practical applications will assist police officers in making better decisions in order to take more effective actions at critical incident scenes
