hamid dabashi s 2007 iran a people interrupted is simultaneously subtle passionate polarizing and polemical a concise account of iranian history from the early 19th century onward dabashi s book uses his incisive analytical skills as a basis for creating a persuasive argument against the views of iran that predominate in the west in dabashi s view western approaches to iran have been colored time and time again by the assumption that it is somehow trapped between regressive tradition and progressive modernity the reality he argues is quite the opposite iran has its own distinctive ideology of modernity which is nevertheless opposed to many western ideals in order to prove his point dabashi draws on a lifetime s experience of literary criticism to analyse the relationship between iran s intellectual and political elites over two centuries his analysis provides the key evidence for his reasoning by teasing out the implicit assumptions that underly the texts and people he examines looking beneath the surface of the evidence dabashi finds time and time again the traces of a uniquely iranian notion of modernity that is quite at odds with its western counterpart

hamid dabashi s 1997 work theology of discontent reveals a creative thinker capable not only of understanding how an argument is built but also of redefining old issues in new ways the iranian revolution of 1978 9 was front page news in the west and in some ways remains so today though it was an uprising against authoritarian royal rule with a coalition of modernisers and islamists the revolution saw the birth of a new islamic republic that seemed to reject pro western democracy dabashi wanted to analyze the real reasons for this change while examining how islamic ideologies contributed to the revolution and the republic that followed theology of discontent examines different islamic thinkers analyzing how views with seemingly little in common contributed to the modern iranian belief system beyond its insightful analytical dissection of these eight thinkers theology of discontent also shows dabashi s creative thinking skills reframing the debates about iran s relationship with the west he traced the ways in which iranian identity formed in reactive opposition to western ideas in many ways dabashi suggested iran was trapped in a cycle of deliberately asserting its

difference from the west a process that was fundamental to the development of its own unique brand of revolutionary islamism
