most famous for the dambusting raid in the darkest days of the second world war the no 617 sqn were a vastly experienced crew it was the first and only squadron to use certain equipment and weapons in combat this study covers the history of the no 617 squadron it explains the men aircraft weapons and operations of this squadron

the webley 455in service revolver is among the most powerful top break revolvers ever produced first adopted in 1887 in various marques it was the standard issue service pistol for british and commonwealth armed forces for nearly fifty years later versions in 38in calibre went on to see further service in world war ii and beyond as well as in a host of law enforcement roles around the world into the 1970s developed to give british service personnel the ability to incapacitate their opponents in small wars around the globe the webley used the formidable and controversial 455in cartridge a variant of which was known as the manstopper

users found it offered good penetration and excellent stopping power with only mild recoil indeed it was rated superior to the us 45 colt in stopping power featuring specially commissioned full colour artwork and close up photographs this is the compelling story of the webley revolver the powerful pistol that saw service across the british empire and throughout two world wars

with descriptions of more than 12 000 newsletters in 4 000 different subject areas this comprehensive resource is an invaluable research tool

this textbook gives an insight into the importance of cell migration in health during development wound healing and immune responses as well as in disease with particular focus on cancer the reader will learn about the different ways cells migrate to allow cellular changes during development to occur as well as responses to injury and threat by foreign invaders cell migration is a driver of invasion and ultimately metastasis in cancer and as such we will give examples from highly aggressive cancer such as brain tumours the book also includes an introduction to mathematical modelling to predict cell migration information on the development of software for analysis of data generated in 2d and 3d as well as recent developments in the investigations into cell migration using 3d bioprinting this textbook will be a great learning tool for advanced undergraduate students and master students with the relevant science degrees such as in cell biology developmental biology cancer research and tumour biology

a look at the raf service of the two most recognizable american built fighters the p 51 mustang and p 47 thunderbolt were the finest american fighters of world war 2 and both saw service with the raf in substantial numbers the raf began flying the mustang in 1944 using it to fly bomber escort missions and deploying to support the ground campaigns in italy and the balkans it was also flown by a number of polish units in the raf the p 47 thunderbolt was the best fighter available in cbi theatre where it was flown by a number of aces against the japanese mainly in a ground support role although these two fighter types are most associated with the americans this book details the important role they performed serving in the raf
