eight foreign policy experts analyze the expanding role of the united states government in pro insurgency counter insurgency and anti terrorist programs around the world

confronting insurgent violence in iraq and afghanistan the u s military has recognized the need to re learn counterinsurgency but how has the department of defense with its mixed efforts responded to this new strategic environment has it learned anything from past

failures in the new counterinsurgency era david ucko examines dod's institutional obstacles and initially slow response to a changing strategic reality ucko also suggests how the military can better prepare for the unique challenges of modern warfare where it is charged with everything from providing security to supporting reconstruction to establishing basic governance all while stabilizing conquered territory and engaging with local populations after briefly surveying the history of american counterinsurgency operations ucko focuses on measures the military has taken since 2001 to relearn old lessons about counterinsurgency to improve its ability to conduct stability operations to change the institutional bias against counterinsurgency and to account for successes gained from the learning process given the effectiveness of insurgent tactics the frequency of operations aimed at building local capacity and the danger of ungoverned spaces acting as havens for hostile groups the military must acquire new skills to confront irregular threats in future wars ucko clearly shows that the opportunity to come to grips with counterinsurgency is matched in magnitude only by the cost of failing to do so

from the carolina swamp fox to the afghan mujahideen this book analyzes 40 guerrilla struggles across five continents profiles important figures and gives extensive bibliographical information with an emphasis on causes and effects part i surveys and analyzes all major guerrilla struggles and many less well known wars from the american revolution to 20th century post colonial conflicts drawing a distinction between guerrilla warfare and terrorism the author focuses on guerrilla activity he seeks to answer such questions as the genesis and context of an insurgency its resemblance to other guerrilla conflicts what factors contributed to victory or defeat which factors are unique to a conflict and what factors are common to many conflicts part ii profiles individuals who are important to the subject including guerrilla chieftains military commanders government officials party leaders theorists and instructors who exerted notable influence part iii surveys the major english language literature on guerrilla warfare providing a a wide ranging representative and intensive collection of works

this book explains why the united states local allies are often as much of an obstacle to success in counterinsurgency as the insurgents themselves

keith b bickel challenges a host of military and strategic theories that treat particular bureaucratic structures large organizations and elites as the progenitors of doctrine this

timely study of how the military draws lessons from interventions focuses on the overlooked role that mid level combat officers play in creating military doctrine mars learning closely evaluates marine civil and military pacification operations in haiti the dominican republic and nicaragua and illuminates the debates surrounding the development of marine corps small wars doctrine between 1915 and 1940 the result is compelling evidence of how field experience obtained before 1940 played a role in shaping the marine corps small wars manual and elements of doctrine that exist today how the marines organized lessons at that time provides important insights into how doctrine is likely to be generated today in response to post cold war interventions around the globe

this new work features the fresh thinking of thirty one leading authors from a variety of military and national security disciplines the anthology is part of a larger rethinking the principles of war project sponsored by the office of force transformation and the u s navy to reexamine traditional and unorthodox approaches to the future of warfare jacket

a detailed look at the crises that have tested oman and accelerated its development

a journal of asian american cultural criticism

for almost a half century the cold war its presumed origins and its anticipated consequences blinded most scholars to the global problems underlying the conflict with the sudden demise of the cold war it is clear that new thinking about conflict in world politics is essential assembling research from a variety of disciplines and cultural perspectives behavior culture and conflict in world politics indicates that conflict between states is not substantially different from conflict within families or societies based on this fundamental assertion the contributors take the first steps toward articulating a general theory of conflict

men in arms is an overview of the development of war in western society from its beginnings in classical times to the present this text shows the social and technical changes that caused war to evolve and the social economic political and technical consequences that stemmed from it
