in this collection international experts explain how they have used visual methods in their own research examine

their advantages and limitations and show how they have been used alongside other research techniques

the routledge handbook of henri lefebvre the city and urban society is the first edited book to focus on lefebvre s urban theories and ideas from a global perspective making use of recent theoretical and empirical developments with contributions from eminent as well as emergent global scholars the book provides international comparison of lefebvrian research and theoretical conjecture and aims to engage with and critique lefebvre s ideas in the context of contemporary urban social and environmental upheavals to use lefebvre s spatial triad as a research tool as well as a point of departure for the adoption of ideas such as differential space to reassess lefebvre s ideas in relation to nature and global environmental sustainability and to highlight how a lefebvrian approach might assist in mobilising resistance to the excesses of globalised neoliberal urbanism the volume draws inspiration from lefebvre s key texts the production of space critique of everyday life and the urban revolution and includes a comprehensive introduction and concluding chapter by the editors the conclusions highlight implications in relation to increasing spatial inequalities increasing diversity of needs including those of migrants more authoritarian approaches and asymmetries of access to urban space above all the book illustrates the continuing relevance of lefebvre s ideas for contemporary urban issues and shows via global case studies how resistance to spatial domination by powerful interests might be achieved the handbook helps the reader navigate the complex terrain of spatial research inspired by lefebvre in particular the handbook focuses on the series of struggles globally for the right to the city and the collision of debates around the urban age cityism and planetary urbanisation it will be a guide for graduate and advanced undergraduate teaching and a key reference for academics in the fields of human geography sociology political science applied philosophy planning urban theory and urban studies practitioners and activists in the field will also find the book of relevance

palaeolithic societies have been a neglected topic in the discussion of human origins in this book which succeeds and replaces the palaeolithic settlement of europe published by cambridge university press in 1986 clive gamble challenges the established view that the social life of europeans over the 500 000 years of the european palaeolithic must remain a mystery in the past forty years archaeologists have recovered a wealth of information from sites throughout the continent professor gamble now introduces a new approach to this material he examines the archaeological evidence from stone tools hunting and campsites for information on the scale of social interaction and the forms of social life taking a pan european view of the archaeological evidence he reconstructs ancient human societies and introduces new perspectives on the unique social experience of

human beings

hong kong boasts a number of rich archaeological sites behind sandy bays among these backbeaches is sha po on lamma island a site which has long captured the attention of archaeologists however until now no comprehensive study of the area has ever been published piecing together sha po presents the first sustained analysis framed in terms of a multi period social landscape of the varieties of human activity in sha po spanning more than 6 000 years synthesising decades of earlier fieldwork together with atha and yip s own extensive excavations conducted in 2008 2010 the discoveries collectively enabled the authors to reconstruct the society in sha po in different historical periods the artefacts unearthed from the site some of them unique to the region reveal a vibrant past which saw the inhabitants of sha po interacting with the environment in diverse ways evidence showing the mastery of quartz ornament manufacture and metallurgy in the bronze age suggests increasing craft specialisation and the rise of a more complex competitive society later on during the six dynasties tang period sha po turned into a centre in the region s imperially controlled kiln based salt industry closer to our time in the nineteenth century the farming and fishing communities in sha po became important suppliers of food and fuel to urban hong kong ultimately this ground breaking work tells a compelling story about human beings ceaseless reinvention of their lives through the lens of one special archaeological site a singular effort in the field of hong kong archaeology piecing together sha po adopts a social landscape approach to chart the development of a single site over millennia of occupation revealing as it does the untapped potential which careful field investigations hold for generating a better understanding of the region s rich past francis allard department of anthropology indiana university of pennsylvania this volume is the best overview of the early history of hong kong that i know the authors have articulated patterns of human settlement at sha po in a masterly way that informs us not only of lamma island or greater hong kong but of lingnan as a whole i welcome it as the key source for specialists and the interested public alike charles higham department of anthropology and archaeology university of otago new zealand it is rare indeed for a multi period study of a region to not only synthesise a vast range of archaeological material but also include incisive points of theory alongside that narrative such as the need to understand evidence at a landscape level and questioning the utility of neolithic and bronze age categories this is such a book steve roskams department of archaeology university of york

first published in 2003 this study analyzes contributions made by kwame nkrumah 1909 1972 to the development of pan african agency from the 1945 pan african congress in manchester to the military coup d etat

of nkrumah s government in february 1966

this book aids entering college students and the people who support college students in navigating college successfully in an environment of information overload where bad advice abounds this book offers readers practical tips and guidance the up to date recommendations in this book are based upon real students sound social science research and the collective experiences of faculty lecturers advisors and student support staff the central thesis of the book is that the transition to adulthood is a complex process and college is pivotal to this experience this book seeks to help young people navigate the college process the student stories in this book highlight how the challenges that college students can encounter vary in important ways based on demographics and social backgrounds despite these varied backgrounds getting invested in the community is crucial for college success for all students universities have many resources available but students need to learn when to access which resources and how best to engage with people serving students through different roles and with distinct expertise there is no single template for student success yet this book highlights common issues that many students face and provides science based advice for how to navigate college each chapter is geared toward college students with a focus on the life stage that many entering college students are in emerging adulthood in addition to the student focused chapters the book includes an appendix for parents and for academics along with supplemental website materials of instructional activities related to the content of the book

through out the current period of educational change geography education has also changed the innovations may be the starting point to affect conceptual change and paradigm shifts geography education assimilates and integrates knowledge skills and scientific methodologies the ten articles in this book illuminate a wide range of topics of interest to geography education in their article skarstein and wolff discuss how the interplay between the environment society and economy pillars of sustainability thinking play out on scales of time space and multitude and how geography teachers can support the students understanding of sustainability yli panula et al analysed used teaching and learning methods to find out good ones for promoting sustainability in geography the same idea can be found in duffin s and perry s article on place based ecology education in their article dūr and keller discuss the topics of quality of life sustainability and global justice based on the goals of education for sustainable development evaluation is an important part of learning it is reviewed by schauss and sprenger regarding climate change education the following two articles deal with students views of landscapes worth

conserving in both studies students expressed concern about the state of the environment yli panula et al found that the mexican students seldom considered their own activities in relation to the environment while yli panula et al stated that only some of the finnish and swedish students act as observers while others actively care for their environment the remaining three articles deal with teaching methods and models benninghaus et al present a benchmark method which allows statements about the quality of the maps diagrams in general Álvarez otero and de lázaro y torres on the other hand describe their technological pedagogical content knowledge model kopnina and saari discusses student assignments reflecting on the documentary film through critical pedagogy and ecopedagogy

the reconstruction of ancient landscapes is not just about physical entities but also about conceptual ones based on her phd dissertation symonds examines how material culture can be used to reflect on landscape and social practice taking pottery production in 10th century lincolnshire as her case study taking a combined theoretical geographical historical typological gis and statistical approach she looks at the ways in which material culture structured social life and explores how daily practices memory perceptions of places territory and movement can bring a better understanding of how landscapes were formed used and perceived

tropentag is the largest interdisciplinary conference in europe on development oriented research in the fields of sub tropical agriculture food security natural resource management and rural development taking place annually tropentag 2020 turned out to be a special challenge originally planned to take place in prague the corona pandemic did not allow presence in or travel to prague for prospective participants atsaf took on the challenge to organise a virtual tropentag based on zoom meetings being streamed on youtube channels using the whova as online conference platform from september 7 to 9 2020

When somebody should go to the book stores, search foundation by shop, shelf by shelf, it is essentially problematic. This is why we provide the ebook compilations in this website.
