support democracy without destroying it and propose a new institution the owls that can mediate between science and society and improve technological decision making for the benefit of all

although leo strauss published little on nietzsche his lectures and correspondence demonstrate a deep critical engagement with nietzsche's thought one of the richest contributions is a seminar on nietzsche's thus spoke zarathustra taught in 1959 during strauss's tenure at the university of chicago in the lectures strauss draws important parallels between nietzsche's most important project and his own ongoing efforts to restore classical political philosophy with leo strauss on nietzsche's thus spoke zarathustra eminent strauss scholar richard l velkley presents strauss's lectures on zarathustra with superb annotations that bring context and clarity to the critical role played by nietzsche in shaping strauss's thought in addition to the broad relationship between nietzsche and political philosophy strauss adeptly guides readers through heidegger's confrontations with nietzsche laying out heidegger's critique of nietzsche's will to power while also showing how heidegger can be read as a foil for his own reading of nietzsche the lectures also shed light on the relationship between heidegger

and strauss as both philosophers saw nietzsche as a central figure for understanding the crisis of philosophy and western civilization strauss s reading of nietzsche is one of the important yet little appreciated philosophical inquiries of the past century both an original interpretation of nietzsche s thought and a deep engagement with the core problems that modernity posed for political philosophy it will be welcomed by anyone interested in the work of either philosopher
