ariel rubinstein s well known lecture notes on microeconomics now fully revised and expanded this book presents ariel rubinstein s lecture notes for the first part of his well known graduate course in microeconomics developed during the fifteen years that rubinstein taught the course at tel aviv university princeton university and new york university these notes provide a critical assessment of models of rational economic agents and are an invaluable supplement to any primary textbook in microeconomic theory in this fully revised and expanded second edition rubinstein retains the striking originality and deep simplicity that characterize his famously engaging style of teaching he presents these lecture notes with a precision that gets to the core of the material and he places special emphasis on the interpretation of key concepts rubinstein brings this concise book thoroughly up to date covering topics like modern choice theory and including dozens of original new problems written by one of the world s most respected and provocative economic theorists this second edition of lecture notes in microeconomic theory is essential reading for students teachers and research economists fully revised expanded and updated retains the engaging style and method of rubinstein s well known lectures covers topics like modern choice theory features numerous original new problems including 21 new review problems solutions manual available only to teachers can be found at gametheory tau ac il microtheory

cooperative models in international relations michael d intriligator and urs luterbacher cooperation problems in international relations research have been associated with a variety of approaches game theoretical and rational choice perspectives have been used extensively

to analyze international conflict at a bilateral two actor level problems of deterrence and conflict escalation and deterrence maintaining and conflict dilemma solving strategies have been studied with a variety of game theoretical constructs these range from two by two games in normal form axelrod 1984 to sequential games it is obvious that the analysis of conflict solving strategies and metastrategies deals implicitly and some times explicitly with cooperation the emphasis on cooperation promoting strategies plays therefore an important role within rational choice analysis of two actor problems however problems of international cooperation have also been tradition ally associated with literary and qualitative approaches this is especially true for studies carried out at a multilateral or systemic level of analysis the association between cooperation problems at the international level and the study of international organizations influenced by the international legal tradition have certainly contributed to this state of affairs the concept of international regime of cooperation krasner 1983 which derives itself from legal studies has been developed entirely within the context of this literary 1 2 cooperative models in international relations research conception however as such studies evolved various authors tended to use more formal constructs to justify their conclusions and to refine their analyses

this collection contains 83 papers presented at the solutions to coastal disasters 2002 conference held in san diego california february 24 27 2002
