may there be another suitable way to describe the beginning of the universe to discover the suitable answers
we must search out something more therefore let us review again according to our modern laws and theories
of physics in this book the assumptions for the beginning of the universe are based on general theory of
relativity quantum mechanics along with some other laws of physics such assumptions are not supporting any
singularity as it has accepted in the big bang etc theories the remarkable fact is that the concepted

assumptions in this book are solving not only the formation and evolution of the universal cosmic bodies but also giving suitable answers for all probable consequences of the planetarian etc constructions mostly of the earth
