An essential tool for all reading groups: a detailed guide to exciting debut novels. The Binding.

Reading is both a social process and a social formation, as this book illustrates across centuries and cultural contexts, highlighting links evident in reading communities from literary salons to online environments. Each essay reflects the rich repertoire of research methods available to reading scholars.

Drawing on scholarly research findings, this book presents a cogent case that librarians can use to work towards prioritization of reading in libraries and in schools. Reading is more important than it has ever been. Recent research on reading, such as Pew reports and Scholastic's Kids and Family Reading Report, proves that fact. This new edition of *Reading Matters* provides powerful evidence that can be used to justify the establishment, maintenance, and growth of pleasure reading collections, both fiction and nonfiction, and of readers' advisory services. The authors assert that reading should be woven into the majority of library activities: reference collection building, provision of leisure materials, readers' advisory services, storytelling, and story time programs, adult literacy programs, and more. This edition also addresses emergent areas of interest, such as e-reading, e-writing, and e-publishing; multiple literacies; visual texts; the ascendancy of young adult fiction and fan fiction. A new chapter addresses special communities of YA readers. The book will help library administrators and personnel convey the importance of reading to grant funding agencies, stakeholders, and the public at large.
