the public outcry for a return to moral education in our schools has raised more dust than it s dispelled building upon his provocative ideas in on becoming responsible michael pritchard clears the air with a sensible plan for promoting our children s moral education through the teaching of reasonableness pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills reasonableness itself he

shows can be best cultivated through the practice of philosophical inquiry within a classroom community in such an environment children learn to work together to listen to one another to build on one another's ideas to probe assumptions and different perspectives and ultimately to think for themselves advocating approaches to moral education that avoid mindless indoctrination and timid relativism pritchard neither preaches nor hides behind abstractions he makes liberal use of actual classroom dialogues to illustrate children's remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truth-telling lying making and keeping promises obedience character and responsibility he also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers the result is a rich and insightful work that provides real hope for the future of our children and their moral education

eighty puzzles the answers are easy but getting there is the hard part uncover connections and identify hidden relationships until suddenly the answers are appearing as if by magic solve situations on the moon around an insect eating plant and gold record racing through space in the voyager spacecraft 96 pages 100 b w illus 5 3 8 x 8 1 4

thinking is not a spectator sport research has shown that the skills of critical thinking must be practiced with a wide variety of problems in many different contexts in order to be learned and retained the exercises questions and reviews in this workbook are designed to provide the systematic practice needed to help readers become more critical thinkers by reading and responding to the questions before reading the accompanying chapter in the text readers will develop a framework that will help them to comprehend anticipate and organize the information in the accompanying chapter based on principles of active learning with authentic tasks all of the exercises were written to be similar to problems and situations readers are likely to

encounter in real life and they provide numerous examples for both short and extended writing assignments problems include topics such as saving money understanding a research report that appears in a newspaper recognizing propaganda reaching reasoned conclusions avoiding common biases and deciding when a risk is too risky these exercises also work well for cooperative learning projects and are designed to help adult learners develop the skills and the habits of mind essential for life long learning designed to be used in conjunction with halpern s text thought knowledge this workbook could also be used with other texts or as a stand alone enhancement in courses on thinking skills and cognitive psychology all exercises along with syllabus suggestions and self assessments are available in the instructor s manual

aims at helping nursing students learn how to think critically the emphasis of the book is on presenting the rationales on how to think critically so that students learn both skills and theory in an applied manner examples analogies case studies and practice sessions are included
