in this major revisionist study eric a nordlinger poses two critical questions about democratic politics how are the public policy decisions of the democratic state in america and europe to be explained to what extent is the democratic state an autonomous entity that is a state that translates its own policy preferences into public policies on the autonomy of the democratic state challenges the central assumption of liberal and marxist scholars journalists and citizens alike that elected and appointed public officials are consistently constrained by society in the making of public policy nordlinger demonstrates that public officials are not only frequently autonomous insofar as they regularly act upon their own policy preferences

but also markedly autonomous in doing so even in the face of opposition from the most politically powerful groups in society voters well organized and financed interest groups national associations of farmers workers employers and large corporations here is a book in which wide ranging generalizations are tightly bound up with empirical examples and data nordlinger systematically identifies the state s many capacities and opportunities for enhancing its autonomy these are used by public officials to shape alter neutralize deflect and resist the policy preferences and pressures of societal groups even the highly fragmented national state in america is shown to be far more independent of societal demands than claimed by the conventional wisdom

this book offers an extensive historical philosophical and ethical discussion on the role of autonomous technologies and their influence on human identity by connecting those different perspectives and analysing some practical case studies it guides readers to dissect the relationship between machine and human autonomy and machine and human identity it analyses how the relationship between human and technology has been evolving in the last few centuries last it aims at proposing an explanation on the reason s why humans have been keen on developing their own autonomy s perfect avatar

this book examines this contested relationship between assessment and autonomy from a number of perspectives in a variety of higher education language learning contexts in europe and the far east the contributors to the book describe research into assessment both for and as autonomy as well as approaches to the assessment of autonomy itself

this collection of new essays examines philosophical issues at the intersection of feminism and autonomy studies are autonomy and independence useful goals for women and subordinate persons is autonomy possible in contexts of social subordination is the pursuit of desires that issue from patriarchal norms consistent with autonomous agency how do emotions and caring relate to autonomous deliberation contributors to this collection answer these questions and others advancing central debates in autonomy theory by examining basic components normative commitments and applications of conceptions of autonomy several chapters look at the conditions necessary for autonomous agency and at the role that values and norms such as independence equality inclusivity self respect care and femininity play in feminist theories of autonomy whereas some contributing authors focus on dimensions of autonomy that are internal to the mind such as deliberative reflection desires cares emotions self identities and feelings of self worth several authors address social conditions and practices that support or stifle autonomous agency often answering questions of practical import these include such questions as what type of gender socialization best supports autonomous agency and feminist goals when does adapting to severely oppressive circumstances such as those in human trafficking turn into a loss of autonomy how are ideals of autonomy affected by capitalism and how do conceptions of autonomy inform issues in bioethics such as end of life decisions or rights to bodily self determination

by comparing the autonomy control and internal management of public organizations this book show how new public management doctrines work out in three small european states with different politico administrative regimes using survey data on 226 state agencies hypotheses drawing on organization theory and neo institutional schools are tested

the beginning of the 21st century is characterized by global structural changes and worldwide concern for the problems surrounding the relationships between states and minority

groups autonomy has become a code word for an all purpose means of inclusion of sub state groups in the three major functions that make for the essence of international law the allocation of competence the furtherance of common interest and the maintenance of international peace since to be autonomous is to be a law to oneself and autonomous agents are self governing agents the authors of this present volume try give an answer each from a particular professional perspective to one overriding question what conditions must be met in order to ensure that the autonomous agents govern themselves and govern effectively with a scholarly attention to analytical precision factual accuracy and scrupulous objectivity the authors of the present volume coming from such diverse fields as international law philosophy ethics economics political science detail and explore the protean character of autonomy as both a concept autonomy's subtypes autonomy vs other arrangements for the diffusion of power within heterogeneous societies new definitions of the concept etc and a practice the potential of autonomy in the peaceful resolution of ethnic conflicts comparative case studies ranging from greenland to eritrea from the baltic states to south asia for all their differences in background and style the authors share the common belief that autonomy if properly understood and applied holds considerable potential for ensuring an effective and harmonious co existence for diverse groups within modern states as such this book will hold particular appeal for all those students academics policymakers practitioners who are on a quest for empowering insights vis à vis state minority modus vivendi and ways to mitigate inter group tensions by compromise

in everyday life we generally assume that we can make our own decisions on matters which concern our own lives we assume that a life followed only according to decisions taken by other people against our will cannot be a well lived life we assume in other words that we are and should be autonomous however it is equally true that many aspects of our lives are not chosen freely this is true of social relations and commitments but also of all those situations we simply seem to stumble into situations which just seem to happen to us the possibility of both the success of an autonomous life and its failure are part of our everyday experiences in this brilliant and illuminating book beate roessler examines the tension between failing and succeeding to live an autonomous life and the obstacles we have to face when we try to live our life autonomously obstacles within ourselves as well as those that stem from social and political conditions she highlights the ambiguities we encounter examines the roles of self awareness and self deception explores the role of autonomy for the meaning of life and maps out the social and political conditions necessary for autonomy informed by philosophical perspectives but also drawing on literary texts such as those of siri hustvedt and jane austen

and diaries including those of franz kafka and sylvia plath roessler develops a formidable defense of autonomy against excessive expectations and above all against overpowering skepticism
