this is the definitive permaculture design manual in print since 1988 it is the textbook and curriculum for the 72 hour certificate course in permaculture design written for teachers students and designers it follows on and greatly enlarges on the initial introductory texts permaculture one 1978 and permaculture two 1979 both of which are still in demand very little of the material found in this book is reproduced from the former texts it covers design methodologies and strategies for both urban and rural applications describing property design and natural farming techniques publisher

this major structural engineering manual covers overall detail design of structural timber and includes extensive tables and coefficients for speedy reference the current edition takes account of revisions to bs 5268 part 2 and outlines the new eurocode on timber it is available for the first time in paperback

in 2010 the then current european national standards for building and construction were replaced by the en eurocodes a set of pan european model building codes developed by the european committee for standardization the eurocodes are a series of 10 european standards en 1990 en 1999 that provide a common approach for the design of buildings other civil engineering works and construction products the design standards embodied in these eurocodes will be used for all european public works and are set to become the de facto standard for the private sector in europe with probable adoption in many other countries this classic manual on structural steelwork design was first published in 1955 since when it has sold many tens of thousands of copies worldwide for the seventh edition of the steel designers manual all chapters have been comprehensively reviewed revised to ensure they reflect current approaches and best practice and brought in to compliance with en 1993 design of steel structures the so called eurocode 3

this classic manual on structural steel design provides a major source of reference for structural engineers and fabricators working with the leading construction material

based fully on the concepts of limit state design the manual has been revised to take account of the 2000 revisions to bs 5950 it also looks at new developments in structural steel environmental issues and outlines the main requirements of the eurocode on structural steel
