the longstanding debate over how god talk is intelligible gravitates around how we should understand the putative answer by analogy for some contemporary christian theologians analogy involves an ontological claim about creaturely and divine being i e an analogy of being for others it involves a semantic or syntactical structure that legitimates the linguistic performances associated with analogy i e a grammatical analogy still others appeal to faith in god s self disclosure in jesus christ i e an analogy of faith rory misiewicz argues that all of these approaches fall flat in their explanatory efforts he draws upon the work of american philosopher charles sanders peirce to rethink the relation between god and human beings he argues that christian theologians may view that relation as being established by an analogy of signs both god and human beings are univocally involved in semiosis or sign process and the confirmation of god s semiotic identity is found in the revelation of god in the person of jesus the incarnate son of god therefore ordinary analogical language is intelligible for divine signs are commensurate with human signs
