accomplished instructors and intelligence practitioners beebe and pherson have created a set of twelve robust class tested cases on events in foreign intelligence counterintelligence terrorism homeland security law enforcement and decision making support the case studies are designed to give analysts intraining a hands on opportunity to apply structured analytic techniques to tackle real life problems each case delivers a compelling narrative and a set of step by step instructions that make teaching and learning as effective and efficient as possible key features questions at the start of

each case challenge the student to think critically and help the students bring the case into focus carefully crafted narratives provide the right amount of detail to give a realistic sense of the complexity and challenges of the case recommended readings at the end of each narrative allow room for further research sections entitled structured analytic techniques in action frame the analytic tasks and provide step by step instructions for applying three to five analytic techniques in a series of exercises for each case study two hundred photos maps figures tables boxes and technique templates support analysis and instruction and a matrix of the cases and techniques used in each cases augment the annotated table of contents and provide students and instructors an all in one view of the contents

this topical book examines the regulatory framework for introducing generic top level domains on the internet drawn up by the internet corporation for assigned names and numbers icann these rules form part of a growing body of transnational private regulation complementing national and international law the book elucidates and discusses how icann has tackled a diverse set of economic and regulatory issues including competition consumer protection property rights procedural fairness and the resolution of disputes

with 750 million people living in villages india has the largest rural population in the world based on his indian experience dr kalam recommends a sustainable and inclusive development system called pura providing urban amenities in rural areas to uplift the rural masses not by subsidies but through entrepreneurship with community participation to make his case dr kalam cites the examples of individuals and institutions in india and from across the world who with an entrepreneurial spirit and a burning desire to make a difference have successfully generated and tapped into the potential of the rural masses fabio luiz de oliveira rosa changed the face of the rural district of palmares brazil by acquiring for the farmers access to electricity and water which effect combined with better agricultural methods led to an increase in prosperity and stemmed the migration to the cities the 123 strong magar clan owned magarpatta a 430 acre plot on the outskirts of pune maharashtra in the 1990s they organized and set up the magarpatta city which is now home to over 35 000 residents and a working population of 65 000 and boasts of an it park

the nexus between best practices and student achievement is demonstrated from the grasp project discovering how some california charter schools with higher academic achievement showed evidence of a greater number of best practices as measured by performance governance education program human resources business practices and facilities the education program infrastructure surprisingly technology did not show a correlation for reasons explained in the nexus moreover the nexus is bolstered by administrative innovation and competition theory serving as foundations for the nexus the nexus also introduces strategies to implement best practices and process improvements through lean six sigma methods and strategic and action planning the search for the next practice designed to improve education programs is perpetual the significance to accreditation is profound as student achievement measures will require metrics paced to reform movements such as common core

standards derived from international settings by the same token quality education will become clearer as edification through international benchmarks such as ISO 9000 will promote higher standards of excellence the nexus conclusions have relevance to all school systems since implementing best practices can elevate student achievement the reason is clear the more a school system operates efficiently through best practices and process improvements the more time is available to the school leadership to devote attention to academic achievement as the ultimate product of education and for those invested in school improvement a higher value added education with a higher return on investment

development economics theory empirical research and policy analysis by Julie Schaffner teaches students to think about development in a way that is disciplined by economic theory informed by cutting edge empirical research and connected in a practical way to contemporary development efforts it lays out a framework for the study of developing economies that is built on microeconomic foundations and that highlights the importance in development studies of transaction and transportation costs risk information problems institutional rules and norms and insights from behavioral economics it then presents a systematic approach to policy analysis and applies the approach to policies from around the world in the areas of targeted transfers welfare agricultural markets infrastructure education agricultural technology microfinance and health

in this interdisciplinary book Giulio Allevato explores how the non fiscal function of the taxing power has contributed to the establishment consolidation and maintenance of an effective power to govern in modern nation states innovative in its historical approach this book illustrates how the link between non budgetary tax policies and state sovereignty continues to play out in the current global landscape

this book is well known for its coverage of modern topics game theory economics of information and behavioral economics clarity of its writing style and graphs and integrated use of real world examples the emphasis on relevance and application to both managerial and public policy decision making are focused goals of the book this emphasis is accomplished by including many extended examples that cover such topics as the analysis of demand cost and market efficiency the design of pricing strategies investment and production decisions and public policy analysis economists and strategists looking to stay current with economic information

this book examines the critical role of economic analysis in recent antitrust case decisions and policy the case studies were written by prominent economists who participated in the proceedings of that case new overview essays precede the four sections horizontal structure horizontal practices vertical and related market issues and network issues
