what are the conceptual and methodological challenges facing comparative politics today this informative book discusses four main challenges that create stress for disciplinary reproduction and advancement while

providing potential solutions in seven chapters the contributors cover the most pressing issues the dissolution of the nation state as the main objective of inquiry the increasing complexity of concepts and methods the capacity to accumulate knowledge and the tensions between parsimonious and contextually rich explanations scholars and students of comparative politics international relations and political science will be interested in the up to date overview of pertinent conceptual problems as well as the possible ways forward practitioners and decision makers will find the real world examples provided in this book useful to their work

building on the strengths of the third edition this highly regarded textbook continues to provide the best introduction to the strategies of comparative research in political science divided into three parts the book begins by examining different methods applying these methods to dominant issues in comparative politics using a wealth of topical examples from around the world and then discusses the new challenges in the area this thoroughly revised and updated edition features additional contemporary case studies including the democratisation of technology and the arab spring detailed discussion of regression analysis and diffusion more analysis of justice inequality and compliance reflection on new methods and treatments of contemporary comparative politics balancing reader friendly features with high quality analysis makes this popular academic text is essential reading for everyone interested in comparative politics and research methods

written by a distinguished group of comparativists this innovative and accessible introductory text surveys 12 key countries organized according to their level of political development established democracies transitional democracies and non democracies the country studies illuminate four comparative themes in a global context the world of states examining the interaction of states within the international order governing the economy covering the role of the state in economic management the democratic idea discussing the pressure for more democracy and the challenges of democratization and the politics of collective identities studying the political impact of diverse attachments and sources of group identity

addresses the increasing need of courses to focus on methodology teaching skills as well as knowledge makes methodology more interesting by using lots of actual examples which allow students to get to grips with the subject more easily first edition has established itself as a leading textbook with its new approach new chapter on the topical subject of human rights

compact and jargon free this book focuses on the major issues and themes of comparative politics it limits its focus to ten major countries so readers won t be overwhelmed by excessive details key topics democratization

and globalization political issues and changes in developing countries alternative institutional frameworks the effects of socioeconomic cleavages non western cultures and values electoral systems new directions in comparative research market for anyone wanting a readable introduction to comparative politics and a broader understanding of world politics

this book surveys 12 countries and compares their stance on civil liberties security political identity political conflict and military policy among other issues

the book is written in a systematic clear and accessible style and provides an excellent introduction to the state of democracy in contemporary postsocialist europe recommended for undergraduate graduate research and faculty collections p rutland choice the euphoria evidenced in the aftermath of the collapse of communist regimes in the late 1980s and early 1990s sometimes conveyed the impression that the process of democratization would be achieved without difficulty or tribulation this book sets out to provide a thorough comparative analysis of the challenges which face the emerging democracies of central and eastern europe and considers the impact of political change drawing heavily on available survey data the book provides an in depth account of how the new democracies of central and eastern europe have coped with four major challenges political fragmentation nationalism lack of respect for human rights and poorly developed civil service systems the book demonstrates that although the first few years of the 1990s were marked by increasing disenchantment with the new regimes the change of governments as a direct result of the electoral process and the prospects for european integration have served to reverse this negative trend indeed the authors find that the new political systems have managed to cope with the challenges so effectively that striking similarities with western democracies are now apparent

this comprehensive text focuses on traditional issues and concepts in comparative politics using a unique theme domestic responses to global challenges the author examines the growing interdependence among strong and weak states and discusses 12 countries including the u s and the european community to help students develop their skills of comparison synthesis and interpretation the author organized the text by economic development

this updated text introduces students to the major challenges facing political systems as we approach the year 2000 the systems are grouped into three types the advanced liberal democracies the communist and post communist nations and the developing nations nagle examines the performance records of these systems in

four areas economic growth social equality personal liberty and quality of life the fifth edition has a major focus on transitions from communism to post communism it pays more attention to japan india and mexico as examples and treats issues like ethnic conflict crisis in the welfare state and new world disorder nagle provides the latest data available

contributed articles

provides a general framework for the study of modern political regimes d democratic authoritarian totalitarian and emphasizes the institutional structure within these regimes and their cultural and socioeconomic foundations

the effectiveness and capacity of survival of democratic regimes has been recently and widely questioned in the public and political debate both democratic institutions and political actors are increasingly confronted with rapid economic and societal transformations that at least according to some observers and commentators they not seem to be ready or equipped to manage effectively this book evaluates and challenges recent scholarly literature on the quality of democracy it provides a critical assessment of the current state of the studies on the subject identifying the key questions and discussing open issues alternative approaches problems and future developments bringing together some of the most prominent and distinguished scholars who have developed and discussed the topic of the quality of democracy during the last decade it deals with a highly relevant topic in political science and extremely sensitive subject for our democratic societies this text will be of key interest to scholars of democracy and democratization and more broadly to comparative politics electoral studies political theory power and comparative political institutions

beginning with an introduction to the field of comparative politics this clear and complete text moves on to explore new innovative directions in the field leading scholar howard j wiarda explores its main approaches including political development political culture dependency theory corporatism indigenous theories of change state society relations rational choice and the new institutionalism wiarda addresses many hot issues in the field can democracy and human rights be transplanted from one culture to another is civil society exportable what works in the effort to develop the poorer nations and what doesn t where are we headed with such frontier research issues as comparative environmental policy women s rights and gay rights the book concludes with a stimulating discussion of whether the great systems debates of the past socialism vs capitalism democracy vs authoritarianism are now over and points to some of the next important study and research frontiers students

professors and general readers will all find comparative politics current provocative and well written a truly balanced overview

this text combines theoretical and comparative introductions to each of the three major political worlds western democracies modern autocracies and less developed systems with descriptions of structures processes events and trends in a diverse array of nations
