teaching and researching reading was first written to help language professionals understand the complex nature of reading now in a thoroughly updated and improved second edition the book expands connections from research on reading to instructional practices and teacher initiated action research offering an updated

overview of reading theory it summarises key ideas and issues in first and second language contexts in addition to providing insightful research analyses grabe and stoller offer practical advice for practitioners and researchers including evidence based teaching ideas and a multi step iterative process for conducting meaningful action research on reading related topics the volume outlines 29 projects for teacher adaptation and use as well as numerous new or substantially expanded resource materials that can be used for both action research and classroom instruction learning aids featured throughout the volume include key concept boxes and a glossary of key terms quote boxes highlighting critical issues in the field resource lists of relevant journals books and websites fully revised throughout with a range of new exemplary l1 and l2 research studies and an entirely new chapter on the move from research implications to instructional applications this second edition of teaching and researching listening is an invaluable resource for teacher trainers practicing teachers materials writers and researchers alike

many agree that engaging in research is what makes a teacher s professional development sustainable and researching and teaching reading studies the ways in which research and teaching are entwined both within and beyond the classroom gabrielle cliff hodes encourages readers to deepen their understanding of reading through high quality teaching and research activities designed to engage young learners and generate rich research data in the expectation that teachers will wish to adapt or develop them further within their own contexts the author explores how teachers research and critical reading can further develop their understanding of their students reading practices and argues that innovative approaches to teaching integrated with research enable english teachers to re construct ideas and change how reading is taught key issues considered in this book include studying reading in terms of extending young people s ability to interpret and enjoy texts the idea of reading as a social practice the concept of culture in relation to reading why historical and spatial theoretical perspectives matter when researching and teaching reading this book is a valuable resource for any student teachers or practising english teachers wishing to learn more about the connection between researching and teaching reading how to combine them in the classroom and the positive effect bringing the two together can have on their own professional development

in this reprinted edition of caleb gattegno s 1967 book teaching reading with words in color teachers are guided through the science and practicalities of using this revolutionary literacy approach from using a pointer to tap on the charts to studying structures with the use of grammar cards and other materials gattegno paints the picture of a well rounded words in color classroom although the materials have been updated over the years this guide still speaks to the heart of this learning centered approach to teaching reading writing and spelling

complete with step by step action plans this book provides the theories techniques and tools pre service and in service teachers need to implement an effective

literature based reading program

whats different about teaching reading to students learning english is revised for 2007 and designed to provide teacher trainers with a curriculum that will guide the professional development of classroom and esl teachers who teach reading in classes where some or all of the students are english language learners

explores the challenges of reading in the context of mathematics

by the time an elementary or secondary school student has finished a course much of what he has learned may already be outdated clearly learning of facts cannot be the main goal of formal education students must be prepared to understand key concepts and know how to acquire further knowledge on their own this practical guide book for elementary and secondary school teachers is founded on two basic premises 1 students need to be taught how to learn and 2 too few teachers know how to guide their students learning to develop content and process at the same time many practice assumptive teaching giving assignments without adequate guidance and assuming students know how to learn the material assigned teaching reading in content areas is a guide to teachers of basic school subjects english social studies mathematics science who wish to teach learning skills along with subject matter at the same time it offers ways to modify suggested procedures the book is deliberately designed to give teachers the experiences they are encouraged to give their students to show them how to do what they are asked to do technical vocabulary is explained at beginnings of chapters study guide materials accompanying chapters are like those to be used in content areas ample illustrative lesson materials accompany explanations procedures have been tested in the classroom by experienced teachers and specific guides to each of the basic subject areas english social studies mathematics and science are given a separate bibliography appears at the end of the book

the third edition of teaching reading comprehension processes is a comprehensive and eclectic book on teaching reading comprehension in the elementary grades the overarching goal of this text is to encourage critical thinking and to challenge readers to examine preconceived ideas and beliefs about teaching comprehension this well researched text is a comprehensive overview of how the relationship among reader text and situation affects the reading process and why comprehension takes place the third edition explores various and contending schools of thought in reading comprehension research and successfully gives students perspective on the socio cultural influences on reading comprehension

introduces pre service and in service teachers to the most current theories and methods for teaching literacy to children in elementary schools the methods presented are based on scientific findings that have been tested in many classrooms a wealth of examples hands on activities and classroom vignettes including

lesson plans assessments lists of children s literature books to fiction and nonfiction texts and more illustrate the methods and bring them to life the text highlights the importance of teaching every child to become competent in

this book will provide hundreds of ideas for improving students reading and engagement no matter what topic you teach
