time is central to our lived experience of the world yet as this book reveals it is startlingly difficult to reconcile the way we seem to experience time with many of the theories presented to us in physics and metaphysics this comprehensive and accessible introduction guides the unfamiliar reader through difficult questions at the intersection of the metaphysics and physics of time it starts with the assumption that physics and metaphysics are inextricably connected and that each can and should shed light on the other the authors explore a range of views about the nature of time showing how different these are from the way we typically think about time and our place in it they consider such questions as whether time travel is possible and if it is whether we can change the past whether there is a single moment that is objectively present whether time flows or is static and whether ultimately time exists at all an introduction to the philosophy of time will appeal to students of physics and philosophy who want both a comprehensive overview of the area and enough depth to allow for rigorous discussion the book s detailed readings and exercises will challenge students and provide a clear roadmap for further study

higher education is a rich and diverse environment which allows so many different types of people and disciplines to flourish medieval studies is a particular confluence of this with the meeting of history literature history of art archaeology and more the contributors describe their lived experience of disability and how this intersects with the discipline of medieval studies embracing both the challenges and the joy this can bring they discuss teaching research and just existing within the university bringing in theoretical approaches as well as linking to medieval texts towards an accessible academy provides a unique perspective on the state of accessibility within this field and in the university environment more broadly this volume sits between work which centers the experience of disabled academics and which provides guidance for supporting disabled students while providing real life testimonies of disability in the academy many chapters also include practical advice on best practice in supporting disabled scholars and students as well as how the authors feel connected to the medieval sources we study the book is also a call to action for all of its readers to actively practise allyship providing clear examples of how we might all implement the advice given by contributors to improve the accessibility of our academy
