explore the obstacles and challenges involved in bringing feminist values and techniques into mainstream therapy feminist therapy has been challenging mainstream therapy thinking and practice for the past thirty years the foundation and future of feminist therapy is the first book to provide a summary and compilation of that history it describes the work of the major contributors early and recent and gives a terrific overview of the rich and radical development of feminist therapy from a variety of perspectives the foundation and future of feminist therapy honors the work of women such as laura brown iris fodor miriam greenspan hannah lerman and lenore walker who developed and who continue to develop feminist therapy theory and practice this book breaks new ground by envisioning a feminist informed future in the areas of therapy practice the education of therapists and community it also provides an unflinching look at the challenges and threats to developing that future and offers suggestions for action the foundation and future of feminist therapy includes the work of past and present contributors to feminist theory on topics such as the complex intertwining of gender and other oppressions the impact of race and ethnicity the effects of sexual orientation age class disability and refugee

and immigrant status discussions about violence against women feminist theory from a wide range of perspectives from relational cultural to multicultural theory perspectives on trauma the discussions at a conference that imagined a future informed by feminist principles and much more for those interested in feminist therapy theory the foundation and future of feminist therapy is an excellent starting point and many references are provided for readers who want to pursue specific topics further this book will interest practicing therapists at all levels including psychologists counselors and social workers it is also appropriate as a textbook for women s studies psychology of women counseling psychology and social work classes

engendering psychology s treatment of issues is based solidly on scientific evidence and presented in a balanced manner the text combines a developmental and topical approach denmark rabinowitz and sechzer explore the concept of gender as a social construction across the lines of race ethnicity class age and sexual orientation pulling from the exciting new scholarship that has emerged over the last few years thoughtful discussion questions emphasize critical thinking skills as well as encourage students to open a dialogue with both their professors and their peers this text will help readers understand the concept of gender as a social construct in contrast to the concept of sex which denotes biological differences upon completing this text readers will have a deeper understanding of women and the knowledge that woman is a diverse and multifaceted category

like its predecessors volume iii of the handbook for teaching introductory psychology provides introductory psychology instructors with teaching ideas and activities that can immediately be put into practice in the classroom it contains an organized collection of articles from teaching of psychology top the official journal of the society for the teaching of psychology division 2 of the american psychological association volume iii contains 89 articles from top that have not been included in other volumes another distinction between this volume and its predecessors is its emphasis on testing and assessment the book is divided into two sections section one issues and approaches in teaching introductory psychology contains 52 articles on critical issues such as how to approach the course understanding students interests perceptions and motives students existing knowledge of psychology including their misconceptions a comparison of introductory textbooks and tips on how to evaluate them test questions and student factors affecting exam performance an overview of different forms of feedback giving extra credit and how to deal with academic dishonesty section two consists of 37 articles that present demonstrations class and laboratory projects and other techniques to enhance teaching and learning in both the introductory as well as advanced courses in the discipline this section is organized so as to parallel the order of topics found in most introductory psychology textbooks intended for academicians who teach the introductory psychology course and or oversee grad assistants who teach the course all royalties of the book go directly to the society for the teaching of psychology to promote its activities to further improve the teaching of psychology

in measures for clinical practice volume 1 couples families and children and volume 2 adults corcoran and fischer provide an extensive collection of more than 400 rapid assessment instruments rais including many questionnaires and scales which assess virtually any problem commonly encountered in clinical practice corcoran and fischer have revised this edition to reflect new research and contemporary clinical practices they include new scales and materials in areas such as assessment in culturally diverse populations and measurement in managed care systems as well as the best instruments updated from the previous editions brief and easy to

administer these best practice measures will be useful for all types of therapeutic and theoretical orientations all instruments are actually reprinted in the book and are carefully introduced and evaluated to aid in their selection corcoran and fischer explain the principles of measurement and how to apply them in practice
